

# GEORGETOWN MAN WINS \$1 MILLION LOTTO MAX PRIZE

Wayne Brown couldn't believe what he was seeing.

"I had to double-check my ticket," said the 57-year-old auto mechanic from Georgetown.

The second look confirmed what he originally saw - he had just become a millionaire.

Brown matched all seven Encore numbers in the exact order on his ticket for the Nov. 22 Lotto Max draw.

"I was surprised when I saw that I won," he said after picking up his \$1-million prize at the OLG prize centre in Toronto.

Brown bought his winning ticket at Quik Pik Variety on Guelph Street in Georgetown.

He plans on investing his winnings for his retirement.

"This win is exciting and life-changing," he said.

Georgetown's Wayne Brown, 57, won the \$1-million Encore prize in the Nov. 22 Lotto Max draw.

Are you changing your lifestyle because of incontinence?  
Let us help you regain your confidence and independence

ERAMOSA  
EPA  
PHYSIOTHERAPY

**Did you know?**

The scientific research clearly shows that physiotherapy should be the first line of treatment for incontinence.

Many people believe that incontinence; the involuntary loss of urine, is a normal occurrence after childbirth or aging. Continence concerns are common but NOT normal.

Stress Incontinence (SI) refers to leakage that is noticed during a cough or sneeze, when laughing, or during strenuous activities like soccer, jumping jacks, or other aerobic activities. Sometimes women get the sudden and urgent need to get to a bathroom. Urge Incontinence (UI) is the loss of urine that is accompanied by this sudden, urgent feeling.

Leakage may have started off with minimal and tolerable amounts of leakage that occurred with a cough or sneeze, but then leakage can accelerate to amounts that are substantial enough to wear protective padding, continence garments or simply just avoiding activities that were once enjoyed.
