

Halton Highlights

March 2020

Employment Halton can help you find a new job or career

If you are searching for a job or a new career, Employment Halton can help you prepare for, find and maintain employment.

Each year, Employment Halton helps more than 12,000 job seekers find meaningful work and assists over 250 employers with their recruitment and training needs. It offers services and one-on-one support through the Region's employment resource centre and online, including:

- local job postings;
- hiring events and job fairs.
- addition and mental health supports; and
- job placement and training;

Our next job fair is being held on Tuesday, March 31 from 10 a.m. to 2 p.m. at the Oakville Conference Centre, located at 2515 Wycroft Road in Oakville. Job seekers are encouraged to bring their resumés and connect with local employers from various sectors including technology, government, manufacturing, retail, hospitality, long-term care and more.

To learn more, visit the Employment Halton page on halton.ca or call 311.

Helping support parents and families in Halton

Parenting can be an exciting and rewarding experience. Whether you are expecting a baby or raising teenagers, Halton Region provides programs, resources and supports to help you raise a safe and healthy family.

Our HaltonParents team of registered nurses, registered dietitians and other health professionals is available Monday to Friday, 8:30 a.m. to 4:30 p.m., and can help answer questions about pregnancy, parenting, child development and more.

The Region also offers a variety of helpful programs and resources to guide you through every stage of raising a family. Learn about our Adjusting to Parenthood groups, Triple P (Positive Parenting Program), or access tips and supports at halton.ca/haltonparents.

Keeping you informed by highlighting what makes Halton a great place to live.

Gary Carr, Regional Chair

Council calls on Federal Government not to approve CN Milton Logistics Hub

On February 12, Regional Council endorsed a resolution calling on the Federal Government to do the right thing and act on our concerns in the next phase of the review by not approving this project. The resolution is based on the Federal Review Panel's assessment that the project is likely to cause significant adverse environmental effects on air quality and on human health, and additional significant effects are likely to occur.

The Panel also identified numerous effects beyond air quality, where CN's project would have adverse health and environmental effects on the surrounding community if not effectively mitigated.

The federal Cabinet will consider the Review Panel's report and determine whether approval will be given for this project. A decision is expected in June 2020.

You can get involved by contacting your MPs and MPPs, joining the conversation on social media using the hashtag #sayNO2CNhub and attending the Town Hall being co-hosted by MP van Koeverden, Halton Region and the Town of Milton on March 28 in Milton. For more information about CN's proposal and the Halton Municipalities' position on this project, please visit halton.ca/cn.
