

STAY IN TOUCH WITH THE LIBRARY DURING ISOLATION

Though the Halton Hills Public Library (HHPL) is closed to the public during the pandemic, residents can still access a number of resources.

LIBRARY CONNECT LINE

During physical distancing, the Library Connect Line (LCL), provides residents with a place for

answers as well as a platform to keep in touch.

The LCL provides patrons with information about:

- The best app to use for your needs
- How to search the digital library
- Differences between Libby and Hoopla
- Using technology

(phones, tablets, computers)

- Homework help
- Logging into an app — A PIN and when to use it
- Attending an HHPL program on Zoom
- Community resources and services
- Accessing online databases
- Catalogue searching

- Finding books
- Research tips
- Family history research
- A social chat about new resources and info
- And more

The LCL connects residents to library staff who can provide assistance, or touch base with patrons by phone or email on a weekly or bi-weekly basis. Library

patrons can sign up for Library Connect Line at hhpl.on.ca.

BOOK A LIBRARIAN

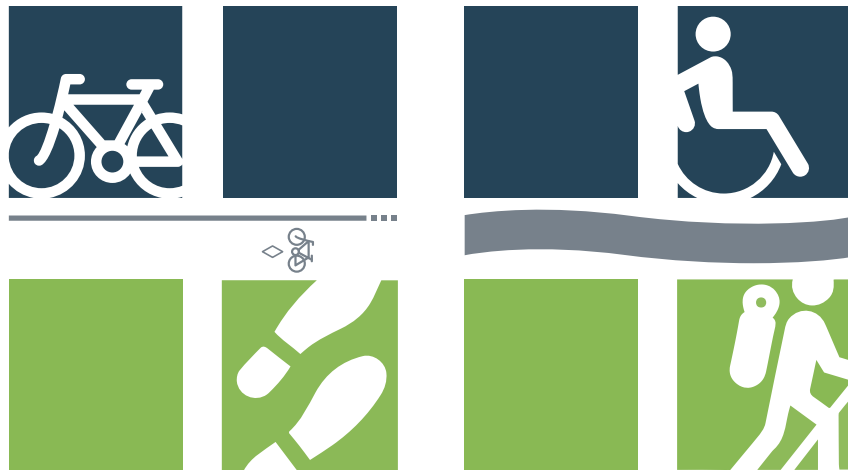

For technology-related requests, information about accessing the digital library, help searching a catalogue, or something that requires a longer explanation, the HHPL's Book a Librarian

service connects residents with a librarian for an uninterrupted 30 minutes. Patrons can book a librarian at hhpl.on.ca.

ASK THE HHPL

Other inquiries can be directed to Askus@haltonhills.ca, and staff will connect residents to the right person or correct resource.

Halton Hills Active Transportation Master Plan (ATMP)

We want to hear from you!

Visit letstalkhaltonhills.ca by May 18 & give us your input on the final phases of the Halton Hills ATMP

View the Virtual Open House presentation and proposed maps and leave your comments using the Feedback tool!
