

AMAZING CARE DISPLAYED AMID CRISIS

I wanted to give a much-deserved shout out to Christoph Summer and each of his staff at Mountainview Residence.

Mountainview Residence was affected severely by COVID-19. This can happen so easily when people are symptom-free and unknowingly infect others.

In unprecedented times, Christoph and his staff have offered wonderful care, compassion and positive energy to residents and families of residents. They have been short-staffed and everyone has worked tirelessly, pitching in to help in any area they are able.

There have been evenings when Christoph has personally sat with my mother for an hour, offering her consolation.

Meals have had to be delivered to more than 200 rooms in a facility that hasn't been set up to distribute meals.

Each day the staff have paraded around the premises, singing and dancing, putting a smile on everyone's face.

Christoph has worked tirelessly from early in the morning until he sends his daily message to residents and families, many times after 11 p.m.

Thank you, Christoph, and thank you to all your staff. It is evident that you love what you do.
