

*Dear Graduates/Senior Athletes:*

The 2019/2020 Graduating Athletic Class!

Thank You! Congratulations! Well Done! This is just the beginning!

*Thank You!*

Creating memories, maintaining excellence, pushing new limits, all the while respecting the history is a tenable task, not cut out for everyone. It was cut out for you! You accomplished all of these things in championship fashion. Win or lose, deep into competition, you embodied the spirit of a life-long learner willing to sacrifice for your teammates and the broader community! You represented Jaguar Nation at the highest level and for that we say, thank you!

*Congratulations!*

.....On your Graduation, and your next steps! This time of year is reserved for Goodbyes and Good Lucks! That will be absent this year in its traditional fashion. Graduating High School is a major milestone not just for you, but your family, friends, neighbors and coaches. While celebrations will likely be scaled down, what should not be scaled down are your accomplishments, achievements, the relationships that have formed, the championships, the close calls and finally, the journey itself! So.... on behalf of the Athletic Department, we say Congratulations to our Graduating Athletes, and their families on a successful and fulfilling journey!

*Well Done!*

We will not be selecting any Individual Awards this year. This is a historical period that requires the ultimate teamwork on so many levels to ensure the safety of the public. The decision was quite easy! We have all been challenged over the past few months to alter our way of doing things, to care for each other, our neighbors, and even strangers. Your job is complete here at Christ the King! We know this. We see it every day in your leadership. We see this every day in these challenging times.

**As you model a confident and positive sense of self, and respect for the dignity and welfare of others.**

**As you respect the rights, responsibilities and contributions of self and others.**

**As you achieve excellence, originality, and integrity in your own work and support these qualities in the work of others.**

**As you contribute to the common good!**

These are the qualities that will make up this year's awards winners!  
That is all of you!
