Notice of Commencement: Town of Halton Hills Specialized Transit Strategy

About

The Town of Halton Hills is developing a Specialized Transit Plan to improve ActiVan service within the Town and in support of the broader Transit Service Strategy. The Plan will be developed in two phases. The first phase will feature a Mid-term Directions report, which will provide short-term recommendations to specialized transit service impacting the 2021 operating budget. The second phase will feature a Final Directions Report that will provide medium to long-term recommendations aimed to increase efficiencies and enhance customer experience as well as support future growth in ridership.

Process and Engagement

The Town will be facilitating a wide array of public consultation and engagement activities to inform the recommendations made in the project. The engagement will be developed according to the latest information available regarding COVID-19. Public consultation and engagement activities will include but are not limited to the following:

Public Meetings

Two public meetings will be held during the second phase of the project. These public meetings will inform attendees of the project's purposes and progress as well as allowing attendees the opportunity to provide feedback.

Stakeholder Sessions

Two rounds of stakeholder sessions will be held during the second phase of the project to collect input from various stakeholder groups. Stakeholders could include agencies representing individuals with disabilities, assisted living residencies, health care providers, etc.

Accessibility Advisory Committee

On-going communication with the Town's Accessibility Advisory Committee.

On-line Survey

An online survey will be released during the second phase of the project that will allow the Town to gather input to inform long term service improvement recommendations.

All public consultation and engagement processes can be expected to begin in Fall 2020.
