COUNCIL

TOWN TO RECEIVE \$1.4M FOR COVID-19 COSTS

BRYAN MYERS
bmyers@metroland.com

The Town of Halton Hills will receive funding from the province, from two different ministries, for a total of over \$1.4 million, as part of the federal-provincial Safe Restart Agreement.

The agreement provides dedicated support to municipalities for COVID-19 operating costs and related pressures.

Steve Clark, minister of municipal affairs advised that the Town would receive \$1,334,000 as part of Phase 1, to support the municipality with COVID-19 operating costs and related pressures.

The exact application of the funding has yet to be determined, but may be applied to costs related to technology, communications and infrastructure improvements related to health and safety.

Caroline Mulroney, minister of transportation, also advised, in a similar letter, that Phase 1 funding for the Town's CO-

VID-19 transit pressures would be \$71,987. The Town will use the funding to offset ActiVan expenses related to COVID-19.

"This is certainly welcome news for Halton Hills," Mayor Rick Bonette said. "I'm pleased that the Government of Ontario has recognized these extraordinary circumstances presented by the pandemic and the burdens in responding to this event during these unprecedented times."

Last month, the province announced up to \$4 billion in emergency assistance would be awarded to Ontario's 444 municipalities, to support the delivery of critical services and the restart of the economy.

The Town will be required to complete documentation to detail COVID-19 expenses, cost containment efforts and the municipality's financial position prior to the disbursement of Phase 2 allocation.

Chris Mills, commissioner of corporate services, said in a prepared release the Town had been keeping strict records on costs related to dealing with the pandemic.

"Back in March when Town Council declared an emergency, we made the decision to immediately implement a process to track COVID-19 expenses," he said.

"We knew it was important to Council and our taxpayers that we could demonstrate our fiscal prudence and the responsible actions taken in addressing the numerous issues related to health and safety and service delivery."
