Help keep our compost clean!

When cleaning your yard, ensure only the right items make it into your paper yard waste bag or container. Yard waste is broken down into valuable compost and is used to improve soil quality. Follow these tips to keep our compost clean:

✓ Acceptable yard waste materials:

- Pumpkins (remove candles and decorations)
- Leaves
- Sticks & twigs
- Decorative cornstalks
- Fallen fruit from trees
- Yard and garden trimmings

✗ Unacceptable materials:

Plastic bags, including clear plastic, compostable plastic or soil bags

Plastic plant pots & trays

Grass clippings, sod, tree stumps, soil, clay or rocks

Yard waste can be dropped off year round at the Halton Waste Management Site for composting. Visit halton.ca/hwms for more information, fees and instructions.

Reducing waste and keeping each other safe

Throughout the pandemic we have continued to deliver our essential services that so many rely on, including Blue Box and Green Cart collection and drop-services at the Halton Waste Management Site. Thank you to everyone who has been following safety measures, while continuing to make sure you are putting waste in the right place! Here are few safety tips to remember:

- bag and tie all garbage and Green Cart material;
- wrap mattresses and box springs in plastic; and
- ensure your bins or bags do not exceed 50 pounds and are safe to collect.

For information on how to properly sort your waste, tips and reminders, visit halton.ca/waste.
