

# Hearing health is brain health

Your ears collect sound,  
but it's your brain that  
actually understands it.

Good hearing helps your brain stay fit throughout your life - and helps avoid many other health problems. That is why Oticon has developed BrainHearing™ technology for hearing aids.

## BrainHearing technology helps you to:

- 🎯 Orient better in the full sound scene
- 🎯 Focus more clearly on what you choose
- 🔊 Improve your understanding of speech
- 🎧 Reduce the effort it takes you to listen
- 🧠 Improve your memory
