

# TOWN PRAISED FOR CLIMATE CHANGE EFFORTS

BRYAN MYERS  
bmyers@metroland.com

The Town of Halton Hills has received multiple accolades for its leadership role in energy consumption and mitigating climate change.

The Town was recognized during the 2020 Mayors' Megawatt Challenge Forum — including an induction into the "10 Per Cent Club" — for lowering energy use by 10 per cent since 2018 at the District 1 fire station.

It also received three leadership awards for high performance in buildings that have met or surpassed their total energy targets (Halton Hills Town Hall, the Acton Arena and Com-

munity Centre, and the Cedarvale Community Centre).

The awards highlight the Town's ongoing efforts to reduce operational energy consumption and greenhouse gas emissions, and align with goals and climate change targets outlined in the Corporate Energy Management plan.

"Fostering a healthy community and a superior quality of life in Halton Hills includes providing a clean environment," said Mayor Rick Bonnette. "

The Mayors' Megawatt Challenge awards recognize our leadership by example and illustrate the positive progress we're making with our climate change initiatives."

The Mayors' Megawatt Challenge is a network of municipalities that features events, bench-marking and assessment reports, analytical tools and a range of other resources.

It is mandated to bring municipalities together to improve energy efficiency and environmental performance in their own buildings and contribute more broadly to mitigating climate change and making their communities more sustainable.
