Halton is accelerating the rollout of second dose vaccines, allowing those who received their first COVID-19 vaccine shot on or before May 30 to get their second dose faster.

"We are pleased to be able to offer earlier second dose appointments to more residents," said Halton Regional Chair Gary Carr in a media release.

"We continue to make great progress and have already vaccinated almost 75 per cent of our 12+ community with the first dose, and 13 per cent have received both doses."

As per the provincial guideline, those who received the AstraZeneca vaccine as their first dose have to wait for eight weeks
