

# IMMEDIATE ACTION NEEDED TO ADDRESS CLIMATE EMERGENCY

This is an open letter to all Halton elected officials.

Halton Advocacy For Climate Emergency Now (HACEN) very much hopes that you have taken to heart the very disturbing information and dire warnings expressed in the most recent report of the United Nations Intergovernmental Panel on Climate Change.

We hope the panel's findings will convince you of the following:

- We are not just confronted with climate change but a climate emergency.
- We must take urgent and courageous action to end the use of oil, gas and coal to energize our economy and rapidly transfer to an economy energized by sun, wind, water and geothermal.
- The long-term sustainability and security of life and civilization on this planet is more important than the increase of immediate individual wealth.
- The financing necessary to pay for these essential changes must be the priority item for all government budgets.

## WE DON'T NEED RURAL GARBAGE PICKUP

This letter is in response to the article in the Aug. 12 Independent and Free Press regarding a man calling for rural garbage collection.

As a 30-year rural Halton Hills resident, I strongly oppose rural garbage pickup. We do not need to contribute to gas emissions or increase taxes to provide this unnecessary service.

Those wanting garbage pickup can hire a company to do so. Given what can be recycled, taking a bag of garbage to the dump once in a while is part of rural life, just like having well water and septic tanks.

It's better to have garbage at the dump than at the end of rural laneways for scavengers to access.
