

NOTICE OF CONSULTATION

Join the conversation on proposed airspace changes in the northern GTA.

NAV CANADA and the Greater Toronto Airports Authority (GTAA) are committed to working with our neighbours to make sure that noise management remains a part of the conversation as the aviation industry recovers from the impacts of the global pandemic.

THE PROPOSAL

NAV CANADA, the country's air navigation service provider, is proposing airspace enhancements around Toronto Pearson Airport. The proposed changes will introduce a new, modern arrival procedure at Toronto Pearson Airport known as Required Navigation Performance Authorization Required (RNP AR) for two runway ends.

RNP AR provides the opportunity to design shorter, more direct routes, enabling aircraft to turn towards the airport sooner. These procedures will support environmental sustainability efforts by significantly reducing greenhouse gases and the overflight of residential areas.

If implemented, some residents may observe changes to air traffic patterns. As a result, NAV CANADA is undertaking public consultation to ensure that communities and businesses have the opportunity to learn about and provide input into the proposed changes.

BE PART OF THE CONVERSATION

NAV CANADA, in collaboration with the GTAA, wants to hear from you.

The public consultation will run from November 1 until December 17, 2021.

Visit www.navcanada.ca/YZRNP to learn more about the proposal, register for upcoming online public briefings or to submit a question or feedback.

NEWS

WEEKLY ROUNDUP: MORE COVID-19 RESTRICTIONS LIFTED

BAMBANG SADEWO
bsadewo@metroland.com

More COVID-19 restrictions have been lifted across the province, with businesses like restaurants and gyms along with casinos, gaming establishments, indoor meeting and event spaces — where proof of vaccination is required — being allowed to operate at a full capacity.

Ontario will also allow personal care services, such as barber shops and salons, and other indoor settings to remove capacity limits and physical distancing if they require

Here's a weekly roundup of COVID-19 cases and news.

proof of vaccination.

The decision was based on continued improvements to key public health and health care indicators, according to Health Minister Christine Elliott.

In addition, the provincial government also plans to allow for a greater capacity at organized public events like Remembrance Day ceremonies and Santa Claus parades.

As for the weekly COVID-19 cases, the region's website shows that from Oct. 22 to 28 there were 76 new cases, down from 91

the previous week. Another Oakville resident died from the disease.

As of Oct. 29, the number of active COVID-19 cases stood at 76 — with 41 cases in Oakville, 18 in Burlington, 10 in Milton, and seven in Halton Hills. There have been 19,882 cases of COVID-19 since the start of the pandemic, with 19,563 marked as resolved and 243 deaths.
