**BLACK BEAR
SIGHTED
NEAR ACTON**

LOUIE ROSELLA
lrosella@metroland.com

Halton police are making Halton Hills residents aware of a black bear sighting.

The incident occurred at around 1:30 p.m. on Sunday (Dec. 5) when police responded to a report of a small black bear located in a wooded area south of the intersection of Regional Road 25 and Number 32 Side Road north of Halton Hills (Acton).

The black bear was not acting in an aggressive manner, police said, and was last seen wandering into the bush south of Davidson Drive.

Metroland file photo

A black bear, similar to this one, was spotted in Halton Hills on Sunday, Dec. 5.

Resources (MNR) has been contacted and is aware of the black bear sighting.

"Although rare, it is not uncommon to have bear sightings in rural wooded areas," police said in a news release. "If you spot a bear, do not approach it, remain calm, and don't panic. Bears who encounter people are normally stressed and will likely

flee."

If you see a bear, keep your pets inside, police warn.

If a black bear poses an immediate threat, call 911 and police will respond.
