

# Ontario is getting stronger

Across the province, more workers are joining the skilled trades as resources and industries in the north become part of the future of clean steel and electric vehicles.

More jobs are being created by building new bridges and highways, expanding public transit and constructing new homes—all for a growing province. Home-grown businesses are manufacturing more of the things we rely on.

The Town of Halton Hills wants to hear from the community as it plans for future outdoor skating and recreation opportunities.

The municipality is undertaking an outdoor ice strategy to review the short- and long-term vision for outdoor ice facilities and the town's programs.

An online survey ([www.letstalkhaltonhills.ca/outdoor-ice-strategy](http://www.letstalkhaltonhills.ca/outdoor-ice-strategy)) is underway to garner input from residents.

Residents can also use a map tool to suggest locations for outdoor ice facilities and share their favourite outdoor skating stories.

The Town's study on this topic will review the following:

The Town of Halton Hills recently opened multiple outdoor skating rinks, including at Acton's Prospect Park.

- Existing outdoor ice facilities and volunteer ice rink program, including potential improvements
- Potential new facilities and programs
- Feasibility/cost analysis and business case for new facilities
- Potential for formal facilities and programs on Fairy Lake
- Impacts of climate change on outdoor ice pro-

grams and facilities.

Currently, there are outdoor rinks at Prospect Park in Acton, the multi-purpose court at Acton Arena, and Fairgrounds Park in Georgetown. The Town also supports community volunteers in creating rinks at suitable locations.
