

Caring Together

Celebrating the Staff, Physicians and Volunteers at Halton Healthcare

The staff, physicians and volunteers at Halton Healthcare have a long history of providing exemplary care to the residents of Halton Hills, Milton and Oakville.

Despite the challenges brought by the pandemic, they have provided compassionate care to our communities with incredible skill, unwavering commitment, respect and professionalism, both on the frontlines and behind-the-scenes.

By *Caring Together*, they continue to support our patients, families, communities and each other.

While the pandemic is not over, we felt that it was important to reflect and acknowledge the entire team at Halton Healthcare for their tremendous efforts to help heal our communities and our neighbours.

I hope you will join us in recognizing the unwavering efforts of our staff, physicians and volunteers during *Caring Together – A Week of Recognition and Thanks* at Halton Healthcare from June 20-26, 2022.

During this week we will be thanking our team members for their personal sacrifices and for making a difference in the lives of so many people in our communities over the past two and a half years.

We encourage you to show your support too. Please use the other side of this page to post a yellow heart in a window at home or work and share your messages of thanks on your preferred social media platform.

Richard Nunn
Chair, Board of Directors
Halton Healthcare
