DISTRACTIONS WHILE DRIVING

You have probably heard recently, that legislation has been passed that will target drivers using cell phones while operating a motor vehicle. We all know that distractions are a dangerous combination and common part of driving on today's congested roadways. Any way to lessen the number of distractions faced daily would greatly help one to focus on the task at hand, and get on with their day. At the Georgetown Hearing Clinic, we do not condone the use of cell phones while driving, but when absolutely necessary, a hands free device, such as a speaker phone, Onstar™ or a bluetooth connected earpiece can be very useful and help reduce distraction - not to mention allow the driver the use of both hands.

At The Georgetown Hearing Clinic, we provide a wide variety of custom fit and non custom fit bluetooth hands free devices.

LOVING TRIBUTE

Sharon O'Connor photos

From left, Sebastian Bobinski (son-in-law), Carolyn Bobinski (daughter), David Hyde (son) and Caitlin Hyde (daughter-in-law) stand by the memorial 'Love Bench' recently installed at the Ewing Street playground as a tribute to Gary and Patti (Holmes) Hyde. The location was chosen for its proximity to the family home built by Gary's father Ern Hyde, a former mayor of Georgetown.
