Together in Safety

Building Connections in Firearms Safety

According to a study published in the Canadian Medical Association Journal, over the last 15 years, more than two-thirds of all gun-related deaths in Ontario were suicides. The majority of those deaths were men aged 40-60 in rural areas.

Buddy Up is a men's suicide prevention communications campaign: a call to action to men by men.

Together in Safety is proud to be a champion of the Buddy Up program, a program designed to drive authentic conversation amongst men and their buddies.

Visit <https://www.buddyup.ca/about/> for more information.

Together in Safety is a public safety resource program created by the Firearms Safety Education Service of Ontario and the Chief Firearms Office of Ontario. Working with our partners, like the Centre for Suicide Prevention, we are promoting awareness and education in firearms safety and harm prevention to all Canadians. Visit togetherinsafety.ca for more information and resources
