POLICE MAKING SWITCH TO ETICKETS

Halton Regional Police video

Halton Regional Police are issuing eTickets in Burlington as part of a pilot project.

Traffic enforcement officers are issuing the electronic tickets, which are filled out digitally with the assistance of a licence readers and printed from the officers' mobile work stations. Officers in Halton Hills, Milton and Oakville will join the pilot project this fall. All officers are expected to be using eTickets by early 2023.

Though the tickets look different, they are still rec-

ognized by the courts. Halton police officers are now issuing eTickets for traffic offences in Burlington. All of Halton's officers are expected to be using eTickets by early 2023.

ognized by the courts.

"For members of the public, eTickets just simply look different, but behind the scenes, eTickets offer many efficiencies and advantages to our officers," said Deputy Chief Roger Wilkie. "eTickets streamline the entire ticketing process, meaning our officers can spend less time on paperwork and more time in the community focused

on safety and well-being."

The eTickets provide officers with pre-populated menus of common charges as well as having the flexibility to enter less-common offences and warnings.

The eTickets are also integrated with Halton's management system, providing accuracy and efficiencies in record keeping, compared to hand-filled, carbon-copy tickets.
