REETI ROHILLA

With the flu season underway, residents are encouraged to get their flu shot.

Influenza, which is commonly known as the flu, is a respiratory infection caused by the influenza A and B viruses.

With an average recovery time of one week to 10 days, prominent flu symptoms include fever, headache, muscle aches, fatigue, cough, running nose, and watery eyes among others, shared the Halton Region website. It added getting a flu shot is the best defence against the virus.
