## CFUW set to launch 21st year

The Georgetown affiliate of the Canadian Federation of University Women (C.F.U.W.) is set to launch their 21st season with a coffee and dessert reception and information meeting for new members at 7:30 p.m. Tuesday, September 15 at St. John's United Church, 11 Guelph Street.

All women holding a university degree or equivalent are encouraged to come out and learn about the Club's activities.

The Georgetown Club is quite active in community affairs by providing committee members for the Halton Hills Urban Review Committee, by having observers at town council meetings, and by commenting on the new Park and Recreation Master Plan.

The club is very active in the promotion of education. Each year over \$3,000 in scholarships are given out to students. Funds are primarily raised at the annual Used Book Sale which is scheduled for April 23 at Know Church.

This past season the club was also able to make donations to the G.D.H.S. Music Department and the Halton Youth Symphony as a

result of a sold-out performance by these two groups which was organized by club members.

Throughout the year, guest speakers make presentations at monthly meetings which the public is encouraged to attend.

This year's line-up is as follows: October 6, Self Defense

Demonstration; November 3, Authors and Illustrators Night; January 5, Halton Hills Parks and Recreation Master Plan; February 2, Earth Summit 1992 with Joan Davison and March 2, Aging Parents with Eunice McGowan.

**NEW!**  
**LAVEDENT DENTURE CLEANSER**  
Cleansing with "LAVEDENT"

As LAVEDENT concentrate is added to water, special agents within the cleaner automatically adjust water hardness and soften the water being used. As soon as enough concentrate has been added (1 to 2 capfuls per 8 ozs. of water), the solution is active. As the denture is immersed, the solution immediately begins to dissolve plaque (tartar), and removes debris and odor. Other special agents allow LAVEDENT to penetrate and clean even the smallest cracks and crevices. While LAVEDENT works within the pH range necessary to remove plaque, it is not a strong oxidant or bleach and, therefore, can safely be used on any dentures with soft linings or metal attachments.

LAVEDENT has so many distinct advantages over other denture cleansers. Its regular use makes sense because you will always be assured of having a completely clean, odor-free, fresh denture.

LAVEDENT is not available in stores, but it can be purchased at our office.
