

Grand Opening

MIAMI'S AUTO TINTING & CLEANING

UFO's

TORONTO - Cosmo Design in association with Planet Design Studio would like to introduce UFO's; high-tech neon lamp fixtures that illuminate the space under a moving car, creating a brilliant aura unlike anything before.

UFO's are specially designed to produce a richly saturated colour effect emanating from beneath the vehicle. The project was developed by a team including one visual artist (Mariusz Lysiak), an industrial designer (John Popadiuk), and an automotive consultant (Roger Hoffman). The teamwork resulted in creating a unique and technologically advanced product. UFO's were designed to satisfy the growing emotional needs for individualistic expression in North America as science and civilization move toward the next century.
