Leonard is top driver in Ontario

Georgetown's Bruce Leonard is Ontario's 1992 Truck Driving Champion in the straight truck division.

Leonard drives for J.D. Smith and Sons, based out of Downsview, and has been trucking for 16 years. He is nine years accident-free.

This was his first year in competition that features five different truck classes in the event..

He entered the Toronto Regionals in June, driving to a clean sweep over his six class competitors and winning Grand Champion of the Day out of all class divisions.

The Ontario provincials were August 8, and Leonard again proved victorious over 14 other drivers. His point total was the highest of the day out of all the classes.

Capturing the Ontario championship took the Leonards on a free trip to Calgary, Alberta for the national finals August 28th.

At each level of competition Leonard had to successfully navigate a difficult obstacle course, write a written test and complete a

Bruce Leonard, Ontario's 1992 Truck Driving Champion in the straight truck class, holds a few of his many trophies and awards.

pre-test inspection.

Leonard didn't place at the national competition but hopes to tackle it again next year.

Leonard said he had often thought of entering the competi-

tion but in previous years it had never been at a convenient time.

He is a longtime member of the Georgetown Kinsmen Club and is secretary for the 1992-93 year.

DANGERS OF CHILDREN WITH MATCHES

Every child is curious. But curiosity about fire can be deadly. Teach your children the dangers of playing with matches and lighters. Teach them that matches are not toys and that they are safe only in the hands of an adult. Keep all matches, lighters and candles out of the reach of young children. Remember, the child who plays with matches and lighters may never grow up. This is a message from your local fire department.

LEARNING TO LIVE WITH DENTURES

Learning to live with dentures often requires a period of adjustment. This time can be shortened if the patient adopts a good mental attitude and is patient and determined to wear his or her dentures. It doesn't matter how much difficulty one experiences at first, as you will gradually learn to master them. Some people learn almost immediately to use false teeth, while others have more difficulty. A few denture wearers do not assume the right mental attitude, and without giving their new teeth a fair trial, begin to think their case is hopeless. These few people will never learn to wear dentures unless they make up their minds to conquer their difficulty. Remember, it takes about four times longer to master a lower denture than an upper denture.

Also, it is important to remember that it isn't always the person with the smallest quantity of gums or ridges that is the hardest to fit, and who apparently would have the most problems. These people usually realize that their case is more difficult, and knowing this, are prepared for anything. When they get their dentures, they will find that denture wearing isn't as bad as they feared. Many people have accepted the challenge of wearing dentures, and won. You can too! Don't hesitate to call our office for any information you might need regarding your dentures.
