

## Roger Ebert's Video Alert

by Roger Ebert

From Universal Press Syndicate

**Falling from Grace** (PG-13, 101 min., 1992) is a smart and sensitive debut by rock star John Mellencamp, who directs Larry McMurtry's screenplay, and stars as a famous singer who comes home again to his small Indiana town and finds that a lot of old grudges, family secrets and resentments are waiting there for him. With a great supporting performance by Kay Lenz as the former girlfriend, now a sister-in-law, who is still mad because the hero didn't take her along when he left town. Rating: ★★★★★

**One False Move** (R, 105 m., 1992) deserves a place on the list of great crime movies, with its story of three fugitives on the run from Los Angeles, and three policemen waiting for them in a small Arkansas town. The film is about cops and criminals, and yet avoids cliches as it gradually uses secrets from the past to make us care deeply about what will happen. Brilliantly written, acted and directed; one of the year's best. Rating: ★★★★★

**The Double Life of Veronique** (NO MPAA, 96 m., 191) is a poetic, mysterious film by Krzysztof Kieslowski, in which the same actress (Irene Jacob) plays two women, one polish, one french, one who lives, one who dies. In some sense they are the same woman, but the movie is not a puzzle to be solved but a meditation on human life. Romantic, beautiful, challenging. Rating: ★★★ 1/2.

### DISCOVER YOUR DENTURE THERAPIST

Dentures are by far the most abused prosthetic aid. They are forever being mixed up with old sets, worn ill matched, broken and then stuck together incorrectly, worn in two or three pieces, flushed down toilets, lost at sea, and even eaten by dogs!

The emergence of the Denture Therapist has meant a closer and more individual concept of patient/professional relationship. With this individual attention, fewer dentures will end up in the bottom of the drawer.

For many years, Denture Therapists have been licensed to serve you DIRECTLY. We are the only profession that spends 100% of our day specializing in the fabrication of dentures. We make new dentures, clean, relines and repair old dentures, as well as counsel denture patients about various denture problems. We make everything from start to finish in our own lab that is located right on the premises. There is no "middle man" that can boost costs. We work directly with the patient, and every stage of denture construction is explained. Special attention is given to the type of teeth used, as well as the specific color and shape that's right for you. Every detail is discussed between the patient and Denture Therapist. The result is a custom cosmetic denture, that both patient and Denture Therapist are proud of.

If you have any questions regarding dentures, contact our office.
