Cat killed, girl struck with baton

A 42-year-old Georgetown man has been charged after a cat was killed and a woman struck by a man with a wooden baton.

According to police, the accused man "became angry with the family cat" and struck the animal with a wooden baton, around 11 a.m. Sunday.

A 15-year-old in the home became upset with the man's actions and tried to stop him.

The man then began striking the girl on the arm, legs and shoulder with the baton causing minor injuries.

Police were called and the man has been charged with assault with a weapon. He is to appear in a Milton court Nov. 30.

Police say the cat was killed as a result of the attack.

Indecent Act

A 40-year-old Brampton man has been charged with committing an indecent act after a person was observed masturbating in a public washroom.

According to police, the man was observed in a Guelph St. store reading a pornographic magazine and masturbating.

The man then went to a wash-room in the store where a security officer "observed the suspect continue masturbating himself openly in the washroom until (the suspect) completed the act."

The man was then arrested.

Fabric Care TIPS

~ Sixteenth of a Series ~
Don't let this get you down...

Down has been popular among hikers, campers and outdoor people for many years, but recently designers have begun to use it in fashion items as well. These days down-filled garments are as likely to be seen at the theater or on the office coat rack as on the wilderness trail.

The majority of down garments respond well to drycleaning. In addition to cleaning, Barragers Cleaners gives special attention to stains on down garments and can renew water-repellent finishes.

Down can be washed at home, either in a washing machine or by hand, but it is a rather awkward procedure. Down must be tumble dried to fluff up completely. It cannot be air dried.

Down responds well to washing and drycleaning, so the decision is made on the size of the item, the construction of the outer shell, the kind and degree of soil, and the recommended care instructions. Very large, bulky items, as well as delicate weaves such as satin, respond better to drycleaning than washing. Drycleaning usually results in a more finished appearance of the outer shell, which is an especially important consideration for fashion items. If you have any further questions about your down garment, check with the friendly staff at Barragers.
