

Lifeline to help

Lorraine Farrow, coordinator of the Home Emergency Lifeline Program of Halton (a registered charity associated with the Oakville-Trafalgar Memorial Hospital), accepts a donation of a Lifeline home communicator from the Rotary Club of Georgetown at the Georgetown hospital Thursday. Rotary donated \$665, enough to purchase one Lifeline machine. Some 20 Georgetown residents are currently Lifeline subscribers, Farrow said.

Xmas surprise

Halton Regional Police are continuing their investigation after a woman noticed a man exposing himself in a Delrex Blvd. home.

According to police, the woman was driving home from work at about 9:45 p.m. Sunday looking at Christmas lights.

As she passed a house on Delrex Blvd. she noticed a man "standing stark naked...in a spread eagle position" in the front window of the house. The curtains were open and while the lights inside the house were off, there was a enough light from the street for the man to be seen, police said.

Fabric Care TIPS

~ Twenty first of a Series ~

BE CAREFUL WITH THAT SPRITZ!

You've showered, brushed your teeth, put on your makeup, and are completely dressed. Now for the final touch - one last big spritz of hair spray before you walk out the door. While this may help to keep your hair in place during the big stockholders meeting, it might also cause irreparable damage to your clothing.

Many hair sprays, mousses, and gels contain a high percentage of alcohol and can cause color loss in certain fabrics - especially silks and acetates. As the alcohol contacts the fabric, the dyes are actually dissolved and pushed out into a ring, where they dry. The resulting ring is permanent.

You may not notice this problem right away, but once general surface soil is removed in cleaning, the color loss becomes quite apparent.

Some hair sprays contain not only alcohol but also lacquers. This can cause dark stains to show up around the collar, neck area, and shoulders. Although these stains can be difficult to remove, it is not usually impossible, and Barragers Cleaners should be able to remove the stains.

Try to spritz before putting on your clothes or at least place a towel over your clothing. These simple steps could save you a lot of aggravation and money.
