REPLACING YOUR OLD STRINGS OF LIGHTS? LOOK FOR ENERGY-SAVING, 5 WATT HOLIDAY LIGHTS.

If you're buying new strings of holiday lights, pick up the ones with the energy-saving 5 watt bulbs instead of the old 7-watts. They are CSA approved, come in the same colours, and they use up to 30% less electricity.

PUT YOUR DECORATIVE LIGHTS ON A TIMER.

A timer is an effective low-cost way to control your outdoor holiday lights. If you're planning to use a timer outdoors, be sure to buy a weatherproof, sealed unit that is specifically approved for outdoor use.

DECORATE CREATIVELY WITH FEWER LIGHTS.

Plan your lighting scheme. You may find a few well placed strings of lights an effective decorating solution.

Police beat

Teen attacked

Police in Georgetown are continuing their investigation into an attack on a 17-year-old Friday.

The youth and two friends were travelling along Stuart McLaren Dr., Georgetown when they noticed a group of girls. They stopped to talk to the girls but one of the females became frightened and ran to tell her father.

When the 30-year-old man came

out of the house, the victim fled with a friend in a car. The suspect and a neighbor pursued the pair and ran them off the road on River Rd.

The suspect removed a stick from the rear of his van and began hitting the car with the stick and kicking the car. He was screaming for the victim to get out of the vehicle.

When the victim got out of the car the suspect hit him with the stick, punched and kicked him.

The second suspect, a 27-year-old put the victim in a headlock and punched him until the victim managed to escape.

Christmas gift?

Police are looking for the culprit after someone placed dog excrement in a parked car early Sunday morning.

About \$100 damage was done to the 1982 Buick Regal which was parked on Norton Cres., Georgetown.

Police said the surprised was placed on the driver's seat, smeared on the steering wheel, door handles and seatbelts.

Police have no suspects in the case.
