

Driver Education Program For Halton Secondary Students:

"Arrive Alive"- Don't shortchange your driver training!

Good driving skills take years to acquire. The average is 2-5 years when accompanied with 'driver education' training and 8 years without it! Obtaining your licence is just the beginning of learning. The Halton Board Driver Education Program focuses on attitudes which reflect caution, courtesy and defensive skills. There are no shortcuts to becoming a skillful driver.

Our Driver Education Program satisfies the following requirements to qualify the student for insurance discounts:

- ◆ 25 hours of in-class instruction
- ◆ 10 hours automatic in-car instruction
- ◆ 20 hours of additional in-car observation instruction (observing is learning)

Concentrates on: ◆ attitude and skill development as major means of ensuring safe driving performances

- ◆ defensive driving techniques
- ◆ emergency manoeuvres
- ◆ reducing accidents and injuries
- ◆ driving in adverse weather
- ◆ impaired driving

Classes held in Burlington, Oakville, Milton, Georgetown and Acton

Quality instruction at an affordable price - \$279

For further information and registration, contact
your High School Office or Sue Trumbell 333-3499/878-1240

Skid Control School

For 25 years the Petro-Canada Skid Control School has served industry and the public in providing the finest emergency training.

"Good price!
Good Instruction!"
-Milton

"I'd never let a driver
who didn't take
Driver Ed drive my
car. I think it's
essential."

-Oakville

Classes start week of
January 11, 1993

Students presently enrolled or have completed in the last calendar year a Driver Education course with Adult & Continuing Education (Halton Board) have the option to enrol in a specially priced and designed 4-hour skid control course for new drivers.
