

Tips on creating the perfect wedding favors

Add a special touch to your wedding with party-perfect favors! A thoughtful memento for guests to take home and treasure will be a reminder of your wedding for days...and years to come.

Whether you're making favors for the rehearsal dinner, ceremony or reception, keep your theme and color scheme in mind. You can mix and match gorgeous ribbons, colorful circles of tulle, and decorative trims to create spectacular remembrances-bows filled with candy-coated almonds, bundles of rice for throwing, and miniature candy-filled champagne glasses. Moms, aunts and bridesmaids will be eager to help.

You might also add a special touch to wedding festivities with:

Confetti bundles - For a grand exit from the ceremony or entrance into the reception, provide guests with tiny bags of white or colored confetti topped with delicate bows, doves or pearl hearts.

Dazzling gifts - Top bridesmaids' gifts with magnificent bows, then attach decorative champagne glasses, party parasols or fancy fans. For the groomsmen, tie on black top hats and canes.

Fancy hair accessories - Attach bows, ribbons and/or sprays of pearls to plain barrettes or combs-beautiful for bridesmaids or the flower girl.

Pretty napkin rings - Use wired "shaping" ribbon to make poppy shaped flowers to tie onto napkins-wonderful for a spring or summer brunch reception.
