Roads cash

Halton North will receive \$2,530,000 in provincial funding to help repair and construct local highway connecting links, Halton North MPP Noel Duignan announced on behalf of Transportation Minister Gilles Pouliot. This funding is part of \$34 million allocated for these road links in 1993.

"These connecting links are important to the economic health of the province," said Mr. Duignan. "Investment in these routes enhances our road systems, provides a boost to the local economy and creates jobs."

Connecting links are the portions of provincial highways that pass through towns or cities and are significant routes for local traffic. Rehabilitation and construction costs are funded primarily by the province. The funding is a part of the ministry's commitment of \$741 million in base capital allocations for municipal roads in 1993. The province is also investing \$900 million in the construction and development of provincial highways this year.

Funding for connecting links will be used for projects across the province. Projects in Halton North include:

- \$1,530,000 to the Town of Halton Hills for the reconstruction and widening of Highway 7 (Guelph Street) from Rexway Drive to Maple Avenue;
- \$800,000 to the Town of Milton for the partial reconstruction and widening of Highway 25 (Steeles Avenue) from Ontario Street to Martin Street;
- \$200,000 to the Town of Milton for the reconstruction of Highway 25 (Ontario Street) from Mountainview Drive to Steeles Avenue.
