The Sphere Clown Band was just one of the many special attractions to entertain children at Georgetown Marketplace over the recent March break. photo by Simon Wilson/HHTW

Georgetown Marketplace a prime attraction

"More together than ever" is the motto of the Georgetown Marketplace, which officially opened as an indoor mall on September 1, 1992.

The newly-renovated mall has attracted many new merchants — there are now 61 stores and services to serve the community. Only two remain vacant at this time.

The mall has quickly become one of the most popular meeting places, whether it is for lunch, shopping or just to walk. Mall Walkers is a new group organized by Work That Body who regularly walk the mall.

Since its opening, the mall has held many special events, including

a boat show, car show and a March Break program for the children. A spring craft show starts today and runs through Saturday.

Local sports groups have used the mall as a place to register for their organizations. Many more events are planned for the rest of the year including an antique show, home show and a special anniversary sale to celebrate the mall's first year in business.

The Georgetown Marketplace offers a variety of shops from clothing and home necessities to food and entertainment needs. The mall is wheelchair accessible, has full time security officers on duty,

and has lots of parking with a large parking lot behind the mall as well as the parking at the front. The mall is located on Hwy. 7 (Guelph Street) between Mountainview Road S. and Sinclair Avenue and is open from Monday to Friday, 10:00 - 9:00, Saturday, 9:30 - 6:00, and Sunday, 12:00 to 5:00.

The Georgetown Marketplace takes pride in its new home and wants to provide a pleasurable shopping experience for you. Mall manager, Herminia Henderson, invites the business and general community to contact her regarding use of the mall property, at 873-8918.

BARBECUE SAFETY

- Never cook on a barbecue indoors or on an apartment balcony.
- Read the instructions that come with the barbecue.
- Before you light it, lift the lid to let any trapped fumes escape.
- Light the barbecue immediately after the gas is turned on.
- Have the tank tested every ten years. If there are any signs of corrosion, damage, wear or tear, replace it.
- When taking the tank for a refill, do not lie it on its side.
- Do not store the tank inside the house. Leaking gas can accumulate in an enclosed area. Left in a well-ventilated shed, air currents will disburse the gases.

Propane or gas barbecues are completely safe, providing they are maintained and stored correctly. Take care moving, filling and reconnecting the cylinder to the barbecue.
