

It is with great pride that Mr. & Mrs. Jim Lilly announce the graduation of our daughter Adrienne from the Honours Political Science Programme at Wilfred Laurier University. We wish her all the best in her plans to continue her studies on the slopes of Whistler Mountain!

St. Alban's Anglican Church in Glen Williams celebrated its 90th birthday last Sunday with activities throughout the day. Pictured above from left is Sylvia Graham, Bill Cunningham, and Linda Hannam, long-time members of the congregation, whose attire appropriately marked the historic event.

Computer camp in Limehouse

By Oksana Buhel

The first computer camp in Halton Hills, and one of only three in the entire region, will be starting up July 5 at Limehouse

Public School, for students between Grades 1 and 8. Seven one-week sessions will be offered, and each session will be divided into three levels. Youngsters will be placed according to their age and computer experience.

"We're teaching programs which aren't used during the school year," explained Tara Gee, camp co-ordinator. "We want the kids to experiment with the programs - to be aware of the possibilities and potential of computers. We also want them to advance their own creativity."

First level campers will experiment with Ez Logo, second level will deal with Logo, and third level with Hyper Card.

Gee is an instructional assistant at the school, and has been co-ordinating computer camps in Oakville for eight years. "I'm looking forward to starting one up in Halton Hills," she said.

To ensure each child has a computer, only 24 applicants will be accepted in each session. The sessions will run between 9:30 a.m. - 3:30 p.m. and will cost \$100 per child. At the end of each session, youngsters will exhibit their skill at a presentation for their parents.

For further information, contact Tara Gee at 873-6354.
