

Forklift falls apart, injuring driver

A 19-year-old Georgetown man, working at Sheridan Nurseries in Halton Hills, was injured Wednesday morning when the right wheel of the forklift he was driving fell off. The forklift overturned, causing the man to be thrown from

the vehicle. He was also injured by parts of the forklift which flew off and struck him. The man was taken to Georgetown and District Memorial Hospital with minor injuries. The Ministry of Labor will conduct the investigation.

the pro shop. None of the merchandise was touched. The suspects took off when the alarm was activated. Police continue to investigate.

Wallets lifted from carts

Police are looking for a man and woman who stole three wallets at Loblaws at the Georgetown Marketplace Wednesday afternoon. According to a police report, victims were distracted by the female suspect, who would either start a conversation or ask questions about the location of goods, while the male suspect would take the wallet from the shopping cart. "This has not happened here before," insisted Ronald McEachern, store manager. "Unfortunately things are changing and we'll have to adjust security accordingly."

Police are looking for a black woman, between 25 - 30 years of age, 183 cm tall, slim build, with dreadlocks, wearing a flower-patterned dress. The man, also black, is also between 25 - 30 years of age, 191 cm, slim build but muscular.

CLEANING YOUR DENTURES

Keeping your dentures clean is the most important patient responsibility in good oral health. Dentures, like natural teeth, attract plaque, become stained, and collect food particles that can cause bad breath. The two best methods of cleansing dentures are brushing and soaking.

SOAKING

Soaking your dentures every night with an effervescent tablet will effectively cleanse away food particles from crevices and spaces between the teeth. It will remove plaque and odour-causing film, and eliminate virtually all micro-organisms.

BRUSHING

The most effective cleansing method is brushing with a special denture brush and paste. Use a special denture paste, as regular toothpastes may be too abrasive, and can damage the acrylic surface of your dentures. Brushing daily will maintain the bright natural appearance, as well as leaving your mouth feeling fresh.

Brushing is particularly recommended for removal of plaque. The best cleansing method is to combine both brushing and soaking.

Denture Therapists can clean your dentures professionally, for stubborn stains and build up.

Pro shop heist

The Hornby Tower Golf Course Pro Shop in Hornby was broken into Wednesday morning around 3:30 a.m. and thieves made off with an undisclosed amount of money. According to a police report, the suspects crawled in through a window and entered the storage area of the shop, which was stocked with golf clubs, but did not take any. The suspects then crawled out of the window and crawled in through another window, entering
