Friday night pick-up needs players

The June 7 game for the Jim Dandies only went to sixth innings. The runs spread was too wide for the seventh inning to be played. The Mighty Ducks started out strong and then faded as the game progressed. All the Jim Dandies had no trouble hitting. Batters were able to get some bunts in successively as well. Their game on Wednesday night was cancelled due to poor field conditions at Acton's Prospect park, with water on the diamond. The cancellation turned out to be a good thing. The ladies managed to get home before the violent thunderstorms swept through the area.

Friday night baseball is quite a lot of fun, as a lot of people are finding out. From an average of 15 people per night, the group plays move ups. On the nights that more people show up, two teams are picked. It makes the game a lot more interesting when teams are playing against each other. This is a mixed baseball night with varying degrees of caliber. You don't have to be a Roberto Alomar to come out. The games are played every Friday night at Ballinafad's Jim Bailey Diamond. Start time is about 7 p.m. or a bit earlier. Give it a try! You'll get some exercise and meet some great folks!

sary for a student to avoid writing an exam at the designated time. Where this is the case, the exam may either be written at a different time or a mark may be estimated in consultation with the teacher. Each situation is examined on its own merits.

Those of you who have occasion to drive through the school parking lot on the way to the pool may have noticed a difference in the way students use the area.

Until last week, the back lot was a popular place for students to congregate to play hacky sack, listen to car radios, visit with one another or to have a cigarette.

In the past, we have told the stu-

dents to consider the line where the blacktop meets the grass to be the school property line. In this way, students would have a place to smoke without having to congregate on the narrow front sidewalk, where pedestrians' right of way might be blocked and highway traffic might present a danger.

However, it has become clear that the number of students using the parking lot, combined with the steady flow of cars passing through the area has created another safety problem.

We have therefore stepped up our supervision of the area and requested students to use only the grassy area. Hacky sacks and car radios playing in parked cars are no longer allowed in the parking

lot.

As well, we shall be reviewing our student smoking policy. The Board has allowed secondary schools some leniency in locating smoking areas, where safety or public concerns have surfaced.

Should you have any thoughts on the matter, I would welcome hearing from you.

PERSONAL INFORMATION CHECKLIST - PART I

by GEORGE WAGNER, C.A.

We all know the importance of having key financial information available in the event of an untimely accident. Unfortunately, many of us put off the listing of this information because it "can't happen to me".

When the unexpected does happen our family is left to gather the information.

Prior to beginning your summer activities, consider taking a few minutes and recording this information for storage in a safe place. Part II of the checklist will be in the June 30, 1993 paper.
