**Busy time Saturday**

By Harry Norton

It has been a long time since I went fishing but I still remember May 1 for Trout and July 1 for small mouth bass. I had forgotten the date for suckers until our President caught me on June 26 and asked me to handle the news until she could get a volunteer, so here goes.

A bus load of comrades from Branch 64, Hamilton, dropped in last Saturday and took advantage of our beautiful location by the lake. Saturday was also the day of our annual barbeque and our Master Chefs, Kerwin and Cal, with their willing helpers, served almost 200 hungry customers. There was plenty of good food and even some off over.

Two roasts were raffled off and the lucky winners were Marj Louttet and Jean McKee. It was lovely outside and nary a mosquito.

Other winners since the last news were:

Saturday, June 19 - Meat Draw

Early Birds: Harry Norton and Ed Cooper

**TIPS FOR DENTURE WEARERS**

- Dentures should be scrubbed well and the inside of the mouth cleaned twice daily.
- Swab or brush the inside of your mouth to remove food debris and collections of bacteria which can irritate your gums.
- Return your denture to your mouth while still wet, by inserting it sideways and then rotating it into place.
- If you have a partial denture, remove it by placing your fingernails over the clasp and use a pulling motion.
- Clean your partial denture in the same way you would clean a full denture. Remove the debris from around the clasps, since they rest directly against natural teeth, and can cause the natural tooth to deteriorate if left unclean.
- When you clean your dentures, you should fill the basin half full with water, or place a towel in the sink so that if you drop your denture, it will not break.
- Never use scouring powder or bleach on your dentures!
- Calcium or tartar deposits may be removed more easily from the dentures by brushing after soaking them in a cup of water to which 2 teaspoons of white vinegar have been added.
- As a general rule, all dentures, partial and complete, should be taken out of the mouth at night. They should be placed in a container of water, as dentures will warp if left out to dry for long periods... If you use a cleaning solution to soak them, the denture should be rinsed thoroughly before you return it to your mouth.
