SCHOOL'S IN...THINK SAFETY

Always be sure the driver can see you when crossing in front of the bus!

Six-year-old Keri Cadger and her 3-year-old sister Mandy were full of bounce on the Giant Air Pillow, one of the activities available for youngsters at the Kelly Miller Circus which was sponsored by the Georgetown Optimist Club and held on the grounds of Gordon Alcott Arena in Georgetown.

Think, Think, Think Safety! Halton Bus Safety Committee held its annual school bus orientation for toddlers going to kindergarten last Saturday at Georgetown District High School. Children and their parents watched a video on safety then went for a bus ride to the Go Station parking lot to practice getting on and off the bus safely.

Music Mania

Music didn't start with Michael Jackson or Motley Crue. It has been around a long, long time and has quite an interesting history. Below are some fascinating facts:

- **Minstrel madness:** In the middle ages, wandering musicians made their livings by singing and reciting poetry.
- **Making a stink:** Some say that Ludwig Van Beethoven never took a bath while he was writing his Ninth Symphony.
- **Believe it or note:** A "Blue Note" is a flattened note, usually on the third or seventh tones of the scale. A true blue note, however, is not written - it is sung.
- **Rhythm nation:** The first thing people notice when they are listening to music is the rhythm. Even babies keep time with their heads.
