

Rabies shots available

By Eileen Ross

For pet owners in Halton Hills, Oct. 16 should be a date circled on your calendars. It's the day two rabies clinics will be open locally for business. The clinics are being held at the Boathouse in Acton at Prospect Park, and Cedarvale Park in Georgetown between the hours of 1-to-3 p.m.

Sponsored jointly by the Halton Regional Health Department and the North Halton Veterinary Association, a rabies vaccination can be obtained for your pets for a low price of \$10. (GST included.)

Rabies is a disease that infects Canadian wildlife, but often can spread to domestic animals (such as dogs and cats), and through them to humans.

The best way to protect your pet and yourself against rabies is to keep your pet under control at all times and by having your cats and dogs vaccinated annually against the virus.

Foxes, skunks, raccoons and bats are the most com-

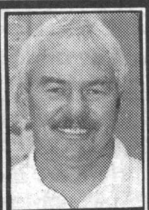

mon carriers of the virus causing the disease. Rabbits, squirrels, rats and mice are rarely infected.

Right now in Halton, rabies prevalence is at the low end of its three-to-five-year cycle. However, there is a concern that a new strain of the virus, common to raccoons in the United States, is moving north into Ontario. This may ultimately result in more cases of rabies being observed in Halton.

Pet owners can guard against rabies by keeping their animals under control at all times and having dogs and cats vaccinated every year against the disease.

For more information, contact Bob Hart at the Halton Regional Health Department, 825-6211 or 878-8113.

POOL & SPA TIPS with Mike Finn

SPA CARE TIPS #1

That swirling, bubbly vessel of hot water promises hours of fun and relaxation with friends and family. But do you have all the facts you need to keep it safe and enjoyable? Your BioGuard® dealer is the best source when it comes to proper tips for new or established spas.

Sanitation
Proper spa sanitation requires a little more care than that of a pool. Higher water temperatures and a relatively larger bather load are the reasons. Spa water may require adjustments more often for pH, total alkalinity and free chlorine or bromine.

pH
Proper pH (7.4-7.6) keeps the sanitizer active and prevents cloudy water and equipment problems. Hot water, particularly if it is aerated, experiences a gradual increase in pH. Therefore, the steps taken to balance a spa are slightly different from a pool. pH needs to be tested every time the spa is used and immediately afterward.

Mike Finn is owner of Acadian Pools, 134 Guelph St., Georgetown. For more information contact him at 873-3320.

Our mistake

The Canadian Vintage Motorcycle Group is an international organization with an existing membership approaching 1,300. The 1993 executive, as voted on by the membership, has been drawn from affiliated sections of the CVMG, primarily in the Southern Ontario area.

The current president is Nick Parent of the Great Pine Ridge section and not local enthusiast Ken Baker as recently published in HHTW.

Locally, Ken has been hosting the monthly CVMG Show and Shine at the George & Dragon Restaurant sanctioned by the Toronto/Halton section of the group.

Upcoming events of interest to motorcycle enthusiasts include the following:

Oct. 02 - Saturday (today) George & Dragon Show and Shine, Georgetown - 12 noon

Oct. 03 - Annual Flea Market/Carlisle

For further information regarding the CVMG, please contact Mr. Eric McNair, 92 Sydenham St., Dundas, Ont., L9H 2V3
