I rode an elephant into the jungle, held a 10 foot live python and experienced a traditional massage. I saw the Royal Palace, many glorious temples and The Emerald Buddha. I fell in love with Thailand and its people - surely the kindest and friendliest I have ever met. All this and a shopper's paradise too.

Rhonda

Rhonda strongly recommends that you include cancellation insurance when making your travel arrangements; you just never know what will happen prior to or while you are away. Voyageur Insurance now has an emergency medical insurance for the longer term traveller... at very competitive rates.

Herma

Austria was everything I ever imagined and much more. Austria offers so much for everyone. There was the thrill of standing next to the Olympic Flame in Innsbruck. Hearing magnificent music in the beautiful opera house. Travelling the countryside by train, with the mountains always in view. May I recommend adding Austria to your European Travel Plans.
