

Make a permanent improvement in your hair

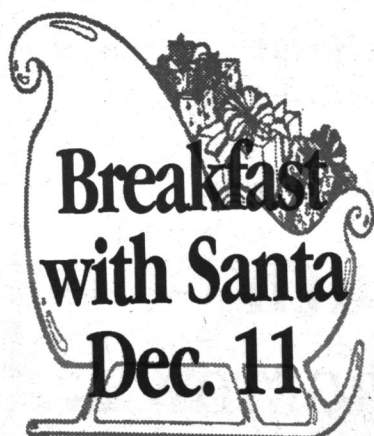

Imagine a perm so good to your hair, it puts an end to Perm Paranoia forever!

Well that Perm is Redken's Vector Plus with the exclusive CAT™ protein network.

Vector Plus actually strengthens hair while it gives you luscious long lasting curls - CAT™ strengthens your hair internally through a gentle infusion of protein. It is one self-adjusting formula for normal, tinted or hi-lighted hair, a mild alkaline formula with the gentle effect of an acidic wave. Low pH alkaline wave provides soft resilient curls. Protects weaker areas and ensures even curl throughout. Reconditioning technology for extra strength and protection. Combines self adjusting formulations with CAT™ technology.

The ultimate treat for mistreated hair. When your hair has been mistreated by chemicals, heat styling or the sun... the best thing to do is treat it right. With CAT™ Protein Network System. CAT™ helps strengthen hair internally as much as 65 percent with repeated use. Now you can style with the CAT™ family.

Post Perm Care is very critical to the life and appearance of your perm. Using the proper shampoos, treatments and conditioners will leave your hair fortified, protected, shiny and manageable... no matter what the hair type or texture.

This week featuring...

The friendly staff at Christiane's for all your hair care. Sayang, Monique and seated owner Christiane DeSme

Once upon a time thirty-four years ago, Christiane opened her first hair salon, on Main Street Georgetown, which has since grown to be popular and successful.

The salon, known as Christiane Hair Styles Ltd. is situated in a picturesque part of old Georgetown, where there is adequate parking at the back of the building (just off Mill Street.)

Christiane and her staff pride themselves by keeping up to date with the latest styles and trends for the whole family.

The chemical department is especially interesting, for those who want to try colour or permanent waving. Chris has taken many courses and seminars, to perfect her technique on colour. She says "It is very important to fully understand the art of colour, whether it is permanent or semi-permanent, and to have the client's total trust and confidence, is a must!" Colours and perms have come a long way over the years. The hair

can look so natural now, Only the hairdresser knows

Colour correction, highlighting offered as well as permanent work is guaranteed when the products are used.

Their aim is and always will be a special touch! The best "professional" products are used and sold in the salon when the client leaves, that way the client knows how to look after the hair in optimum condition.

There is a great selection of reception area, where you will find all curling irons, blow dryers, control, trimming scissors, clips, etc. But, there is also jewelry, such as earrings, bangles, and necklaces, ideal for that stocking

DOWNTOWN MARKET
