**Duplicate Bridge Results**

Last Monday afternoon duplicate bridge results, after play at Georgetown Branch 120 Royal Canadian Legion on Mill St.:

- 1) Elsie Whitham and Rene March
- 2) Wyn Landsdell and Earl Ryder
- 3) Jack Kaarsemaker and Karol Tobiasz
- 4) Tied were: Bob Jackson and Bill Scannell; Doris Barber and Adele Glavicic.

Christmas bridge on Monday will celebrate Earl Ryder's 75th birthday as well.

If there is enough interest, we will play on Dec. 20. No bridge on Dec. 27th. Play will resume on Jan. 3.

**DENTAL MATERIALS**

Charles Goodyear invented a denture base material back in the mid-1800s. This material was called "Vulcanite. Vulcanite is a dark brown, semi-rigid rubber. Since then, denture base materials have come a long way, and vast changes and improvements have been made. Today, very modern plastics and acrylics are used.

The artificial teeth on a denture were made from such materials as bone and ivory. Precious metals such as gold and silver were also tried. Even wood was used to make teeth!

Finally, porcelain and plastic teeth have replaced the former materials. We've come a long way since the days of "wooden teeth". Denture technology has been vastly improved for denture wearers, and they are continually discovering new techniques and materials.

Today, more than 5 million Canadian adults are wearing dentures. That's more than one out of every four people in Canada.
