Take Care of Our Kids...

Safe Driving Tips for Back-To-School

It's that time of year again, and all of us at The Acton Tanner — along with the surrounding hometown businesses — are asking all local drivers to take special care behind the wheel. Here are a few tips to remember now that the kids are back at school ... and all year long!

- Students need a period of time to adjust to a new routine after a summer of carefree living. This means that many young people will have other things on their mind when making their way to and from the classroom. The last thing on their minds might be to look both ways before crossing the street.

- Daily routes are not established yet, so many youngsters are crossing roads at un-

sual and unfamiliar spots. Expect the unexpected.

- The start of classes often means lugging extra school supplies from home. Especially for youngsters on bicycles, this can mean for awkward, unsteady movements. Watch for loaded-down bikers.

- Slow down! At any time of the year, a little extra caution can mean all the difference. Don't be in such a hurry; take your time and enjoy the fall colours.

- Of course, take extra care when traveling in the vicinity of our local schools. Obey posted speed limits and pay close attention to crossing guards. (They're just back on the job, too!)
