Record numbers travel overseas

Canadians headed overseas in record numbers in 1995 despite the somewhat gloomy economic climate here - or maybe it was because of it! Strong growth for four years in a row, according to Stats Canada records, with over 3.5 million travellers venturing to Europe, Asia and other ports of call. This year is no exception according to bookings already made locally!

"We're off to Kansas City, Kansas City here we come" is the song Air Canada is singing these days as they announce new service to this midwest U.S. city. An introductory return fare of \$197 is available with early bookings - service starts in August - see your local professional travel agency for service. Gradually becoming a truly full-service carrier (into Hong Kong recently), this adds yet another major U.S. city for our national carrier to serve. Great for business traveller and tourist alike!

If you have an interest in ariplanes and want a great day out you should make a trip to the Canadian Warplane Heritage Museum at Hamilton Airport in Mount Hope. It is a wonderful trip down memory lane we took recently, plus it's very educational for young and old. The Lancaster is our favourite, but there are many, many crafts to see, and the volunteers are ever so proud to share their knowledge with you! A beautiful new structure houses all the planes and there is a restaurant and a souvenir shop.

How about a cruise - this time on Lake Ontario! This summer there will be cruises on the Great Lakes by Clipper Cruise Lines' 100-passenger "Nantucket Clipper." A feature will be a 10-day journey in the lakes and to French Canada including stops in Quebec City and Montreal and whalewatching in the Saguenay River.

Travel tip of the week: Travellers cheques or a lot of cash are not always necessary to be carried when you travel. If you have a bank card, you are able to get the local currency as you need it in most of the countries you travel to now.
