ONTARIO DRUG BENEFITS
IMPORTANT News for Seniors and People Receiving Social Assistance

Because the federal government has reduced transfer payments for Ontario's health and social services by \$2.1 billion over the next two years, the Ontario government must act now to preserve its drug programs.

Starting July 15, Ontario Drug Benefit recipients will contribute a small amount toward their prescription costs. Ontario is the last province to introduce co-payments.

How much you pay depends on your income. You will pay up to \$2 per prescription if you are:

- single, 65 or over, with a net income of less than \$16,018 per year
- a couple, both over 65, with a combined net income of less than \$24,175 per year
- living in a nursing home, home for the aged or home for special care
- receiving welfare or family benefits
- receiving home care

You're 65 and your income is higher than the above? Then you pay the first \$100 of your drug costs each year. After that, you'll pay only the ODB dispensing fee of up to \$6.11 per prescription.

You have extra health insurance from a private company? Call your company. It may cover co-payment costs.

Call the Ministry of Health at 1-888-405-0405 if you have more questions. Or look for information sheets at your pharmacy.
