

Saluting Home Based Businesses!

Enterprising • Achieving • Working Hard to Serve You!

Frenchie's Fries

Claude Morissette

Frenchie's Fries is a family operation which has been in business for 18 years. We cover all major events in the surrounding area such as community fairs in Acton, Georgetown and Milton, the Fergus Highland Games and the Elmira Sugar Maple Festival.

We also have four local concessions: Prospect Park in Acton, Eden Mills Park and two locations in Rockwood – Rockmosa and Lloyd Dyer Park. We also have a year-round chip truck in the Carpet Barn parking lot in Georgetown. We serve hamburgers, hot dogs, cold drinks and much more.

We love this business because we get to serve the friendly people of the community. We offer a 10% discount to seniors and rain days as well as **10% OFF WITH REFERENCE TO THIS AD.**

We look forward to serving you!

Aquatic Pool & Spa

Colin Ash • 853-1800

I have been in business for 23 years serving mainly Halton Hills, Milton, Rockwood and Erin.

We specialize in replacement liners but do any service pertaining to pools or spas, including opening and closing for the season.

I enjoy dealing personally with customers, many of whom call me by my first name. By not having a storefront we are able to keep our overhead down, which passes savings onto you, the customer. This allows us to offer customer satisfaction, guaranteed.

We have a wide variety of liner designs to choose from for both inground and above-ground pools. All quotes depend on individual needs and can be adjusted to suit you. We have a cube van which is our mobile store, so when a service call comes through, we usually can complete repairs in one trip.

Our motto is: "WE BUY THE BEST FOR LESS!"

Allison PC Software Services

Susan Allison • 856-9375
Jackson Street, Rockwood

Three years ago the company I worked for as a PC Software Trainer relocated to Regina, leaving me out of a job. For a while I did a variety of volunteer work in Rockwood. However, I wanted to get back into computer training, so 18 months ago I set up a home office and started Allison PC Software Services. My goal was to provide quality training and software support to people and businesses in the community.

One-to-one training allows me to customize the length and the skill level of the class to suit the individual student's needs. Full or half day courses can be booked. The courses I teach include Intro to Computing, Windows, DOS and spreadsheet and word processing packages. My business also offers graphic design, desktop publishing and secretarial services. I design flyers, newsletters, brochures and logos and also type mailing lists, labels, resumes and more.

Meeting new people and being able to share my knowledge and skills I have learned are the most satisfying aspects of my business.

Blinds & More

Linda & Doug Millard • 878-3387
561 Beaver Court, Milton

We have lived in Milton for 10 years and operate our window covering business from our home.

We save the expense of a conventional storefront business and pass the savings onto our customers. The customer can choose their product in the comfort of their own home and save time looking for help and standing in line at a super centre.

We have the opportunity of accurately measuring and evaluating any technical difficulties.

Our hours are very flexible, with evening and weekend appointments available, to fit with our clients' busy work schedules.

Products from Hunter Douglas, Levolor, Draco Kirsh and Shutters Unlimited provide the best quality and guarantees in North America.

Give us a call – we look forward to meeting you and to giving you a free estimate.
