#### THE MOST COMMONLY ASKED QUESTIONS ABOUT CLEANING YOUR VCR

*How often does my VCR need to be cleaned? Should it be done as regular maintenance or only when a problem is encountered?*

A VCR is both an electronic and mechanical device. It has everything from a sophisticated computer control system down to the simplest rubber belt. It can be compared to the modern automobile. Just like your car, it is subject to wear and tear through normal use.

#### *Who needs to have their VCR cleaned?*

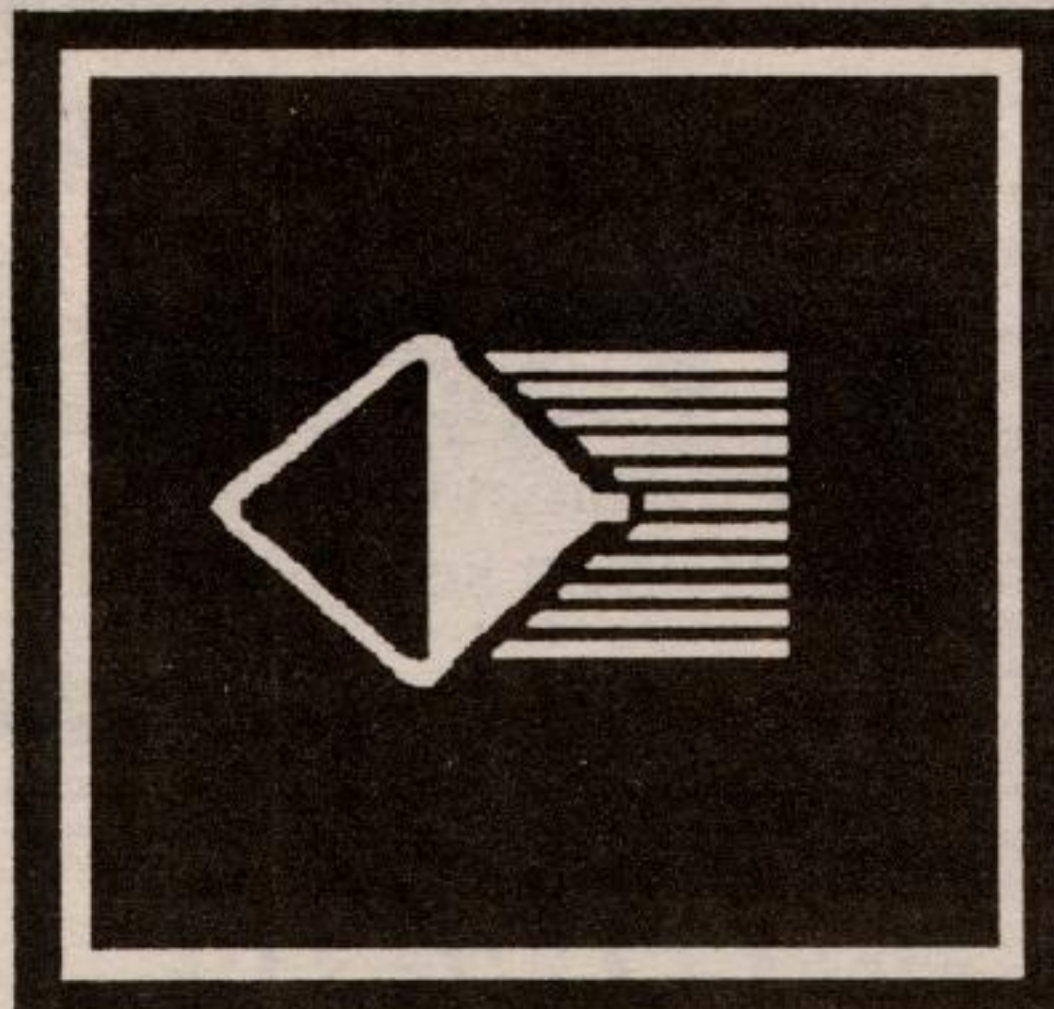

If you are renting a lot of tapes, particularly children's tapes, as opposed to just recording your favourite show, you should have it serviced more often. This is because dirt from one machine is deposited on the tape and is transported to your machine when you play it. Also smoking causes tar to be deposited on the surfaces which makes for a very sticky VCR and a lot of damage if not thoroughly cleaned off. Preventative maintenance is the key here, for all VCR owners. Therefore an inspection and cleaning should be performed every two years, even when symptoms don't exist.

#### *Can't I just use one of those cassette cleaning cartridges to clean it? It does the same job, right?*

Head cleaners do *only* that...they clean the heads. Most of the other parts in the tape path 'roll' with the cleaning tape, so there is no scrubbing effect. Many problems are caused by the VCR 'eating the tape' which can be caused by the tape binding against dirty and sticky tape guides. Also, head cleaners are very abrasive and wear the heads down over time. Remember the head should last the life of the machine!

#### *How does PROTRAK ELECTRONICS clean my VCR? For only 29.95!*

*...Stay Tuned for the next edition of Tanner Plus to find out the answer to this question.*

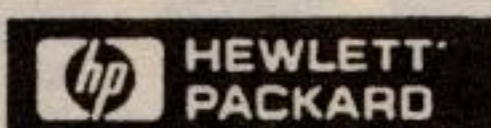

# Milton Computer Services

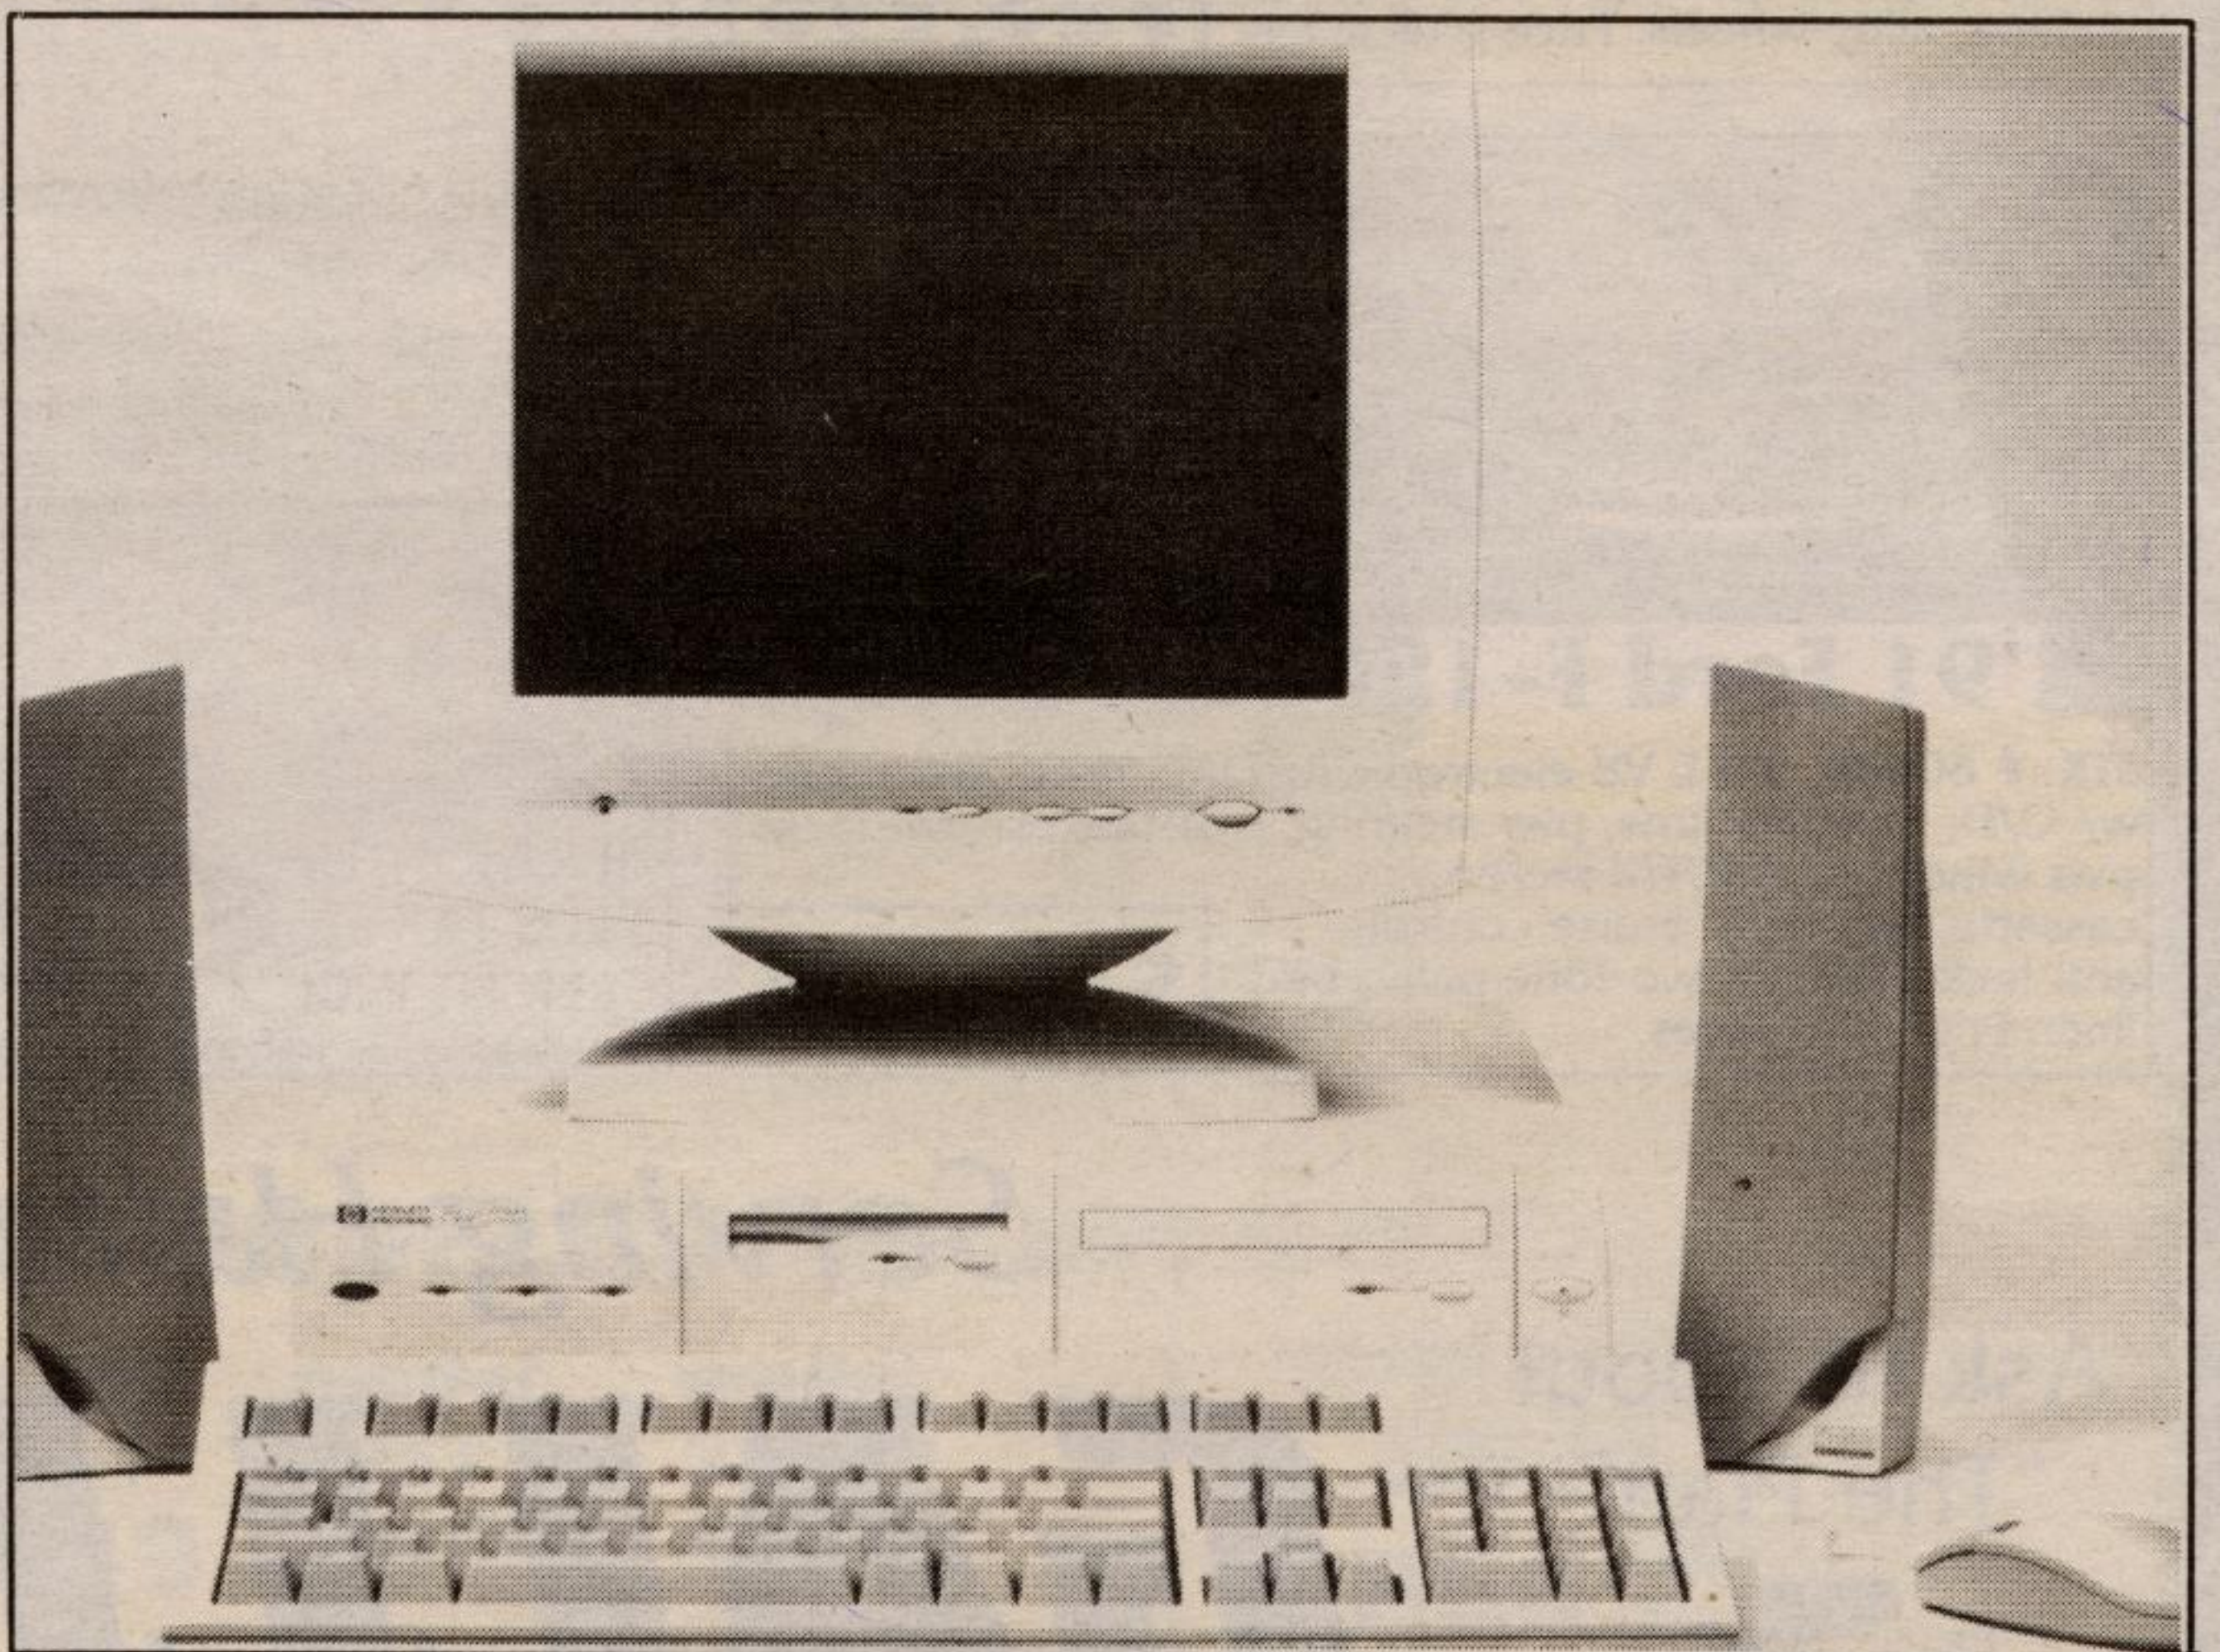

## It's not just a PC. It's an HP.

### New in Canada, the HP Pavilion PC.

What makes this PC different from other computers is that all HP Pavilions are HP RealLife Imaging ready. This allows for plug-and-play with various HP printers and peripherals, products that have set the industry's standard for quality and reliability. The HP Pavilion line provides your family with a variety of options, from an affordable yet powerful entry level model, to a top end unit that has a built-in colour scanner. You'll be sure to find an HP Pavilion that will meet all your needs.

Authorized  
Retailer

Why not take a look for yourself at your local retailer:

751 Main St. E., Suite 2, Milton
