Administrator Audrey Shine is proud that **Brampton Montessori School** is celebrating its 25th anniversary this year. This established private school has grown to 120 children in its Casa program (for 2½ to 5-year-olds), located on Queen Street, and 70 children in its Elementary program (for 6 to 12-year-olds) at the Van Kirk Drive campus.

What is Montessori? *Montessori is a philosophy with the fundamental tenet that a child learns best within a social environment which supports each individual's unique development.*

As an authentic Montessori school, Brampton Montessori offers fully-trained and qualified Montessori teachers, multi-age groupings of students in classrooms equipped with a wide range of Montessori materials, and full and half day programs five days a week. The school emphasizes an excellent phonics program, and endeavours to contribute to the healthy development of all aspects of the children's personalities, consistent with high standards in conduct and academic work.

Dr. Katherine Cameron,

a chiropractor, has been practicing in Georgetown for over one year.

The majority of people seek chiropractic care due to low back pain, neck pain, or headaches. Dr. Cameron says that there are many other reasons people visit a chiropractor, a few of which may include

stress, athletic injuries, fibromyalgia, carpal tunnel syndrome and pregnancy.

Your visits to a chiropractor are partially covered by OHIP with a small fee covered by the patient. Many health insurance policies have coverage for chiropractic treatment. If you have been injured at work, WCB may cover the cost of your chiropractic treatment. You do not require a medical referral to visit a chiropractor.

If you have any questions, please call the
