

# HALTON REGION FINANCIAL

## A Message from Regional Chairman Joyce Savoline

I am pleased to present Halton Region's 2000 Annual Report.

For the residents of Halton Region, the services the regional government provides are at the very centre of what is important to our communities. These services include safe drinking water, safe disposal of our wastewater, growth management, health programs, social assistance, police and ambulance services, waste collection and recycling, and protection of rural areas.

While it's important to us that you know about the variety of services and programs we provide to our community, we also think it's important that you know how your property taxes are spent on these Regional services. That's why every year we develop a financial report for our residents and businesses.

As Chairman of Halton Region I am pleased to report the financial results for the year 2000. Below are highlights of the important work that the Region has been undertaking.

Halton's financial position continues to remain one of the strongest among Ontario municipalities as evidenced by our Triple A bond rating. Achieving a Triple A rating reaffirms our financial health and allows us to deal with various financial pressures and growth challenges by borrowing money at the best possible rates.

Our long-term debt is at its lowest point in 24 years and we have continued our unbroken string of surpluses since 1981. This year's surplus was \$7.6 million and was generated through increased economic growth and careful control over spending.

In 1998, the provincial government transferred the financial responsibility for a variety of services in Halton. In 2000, the Region began to take significant steps to assume control for the delivery of some of these services:

### AMBULANCE

In August, the Region assumed the operations of Land Ambulance Services in Halton. We have taken immediate steps to expand this service which has not seen any new resources since 1985 despite our tremendous population growth. Additional service improvements will be made in 2001.

### SOCIAL HOUSING

In the fall, the province announced the transfer of ownership of the Halton Housing Authority to the Region effective January 1, 2001. The Halton Housing Authority is the largest social housing provider in Halton. In April 2001 Council approved the amalgamation of the Halton Housing Authority with the Region's own Halton Non-Profit Housing Corporation in an effort to strengthen both operations and to better protect the significant capital investments these corporations have made. The

amalgamation was completed by September 1, 2001, with a new name: Halton Community Housing Corporation.

### WATER

There have been several news stories about the declining state of public infrastructure and the financial challenges it presents. On the water and wastewater front, we have risen to the challenge. Halton has long recognized that providing water services is a sacred public trust that can only be protected through action and investment. We continue to invest in more testing, the latest technologies and upgrades to our existing system in order to improve our infrastructure and preserve that trust.

We are more than halfway through our cast-iron water main replacement program, completing 80 kilometres. This will address aesthetic concerns, and improve public safety by dramatically improving water flows for fire fighting purposes.

Council recently approved water rate increases that will allow us to begin installing state-of-the-art ozonation disinfection systems at our water treatment plant in Burlington to eliminate taste and odour concerns and to improve water quality. The plant upgrades will be completed by 2003, and in the coming years, a similar project will take place in Oakville.

### SENIORS SERVICES

The Region has also responded to the challenges raised by an ageing population. The Region received approval from the Province to build a 225-bed long-term care facility in Oakville and construction will start later this year and is expected to open in 2003. A second 144-bed long-term care facility in Burlington is expected to open in 2004.

We have made great strides in providing and in some cases enhancing our services and programs. You can be assured that Council and Regional staff will make every effort to maintain our record of success well into the future.

Joyce Savoline  
Chairman, Halton Region

### SCHEDULE OF CURRENT FUND OPERATIONS

(\$000's)	2000		1999	COST PER HOUSEHOLD (\$185,000 assessed value)	
	BUDGET	ACTUAL	ACTUAL	2000	1999
<b>EXPENDITURE</b>					
<b>FUNDED BY PROPERTY TAXES</b>					
General government	\$ 18,321	\$ 17,282	\$ 18,929	\$ 69.15	\$ 68.69
