## What a blast

by Kim Pickering

During the summer, David Burchett and his mother Lana went on a tour of the Milton Quarry. They took advantage of a Dufferin Open House, toured the quarry and viewed the heavy equipment.

They entered a draw for a supervised tour of the Milton Quarry and David won. He then had to make the tough decision of choosing a couple of friends to come on the tour or his class.

Deciding it was easier to take the whole class than select just a few friends, David's grade 5/6 Percy Merry class visited the Milton Quarry on October 15. They got to go through the extraction area, the plant site, the rehabilitation zone and a fossil find.

The also got to take a nature walk on the Bruce Trail. Dufferin Aggregates provided an informative guide to explain about the company's history, operation and its envi-

ronmental commitment. The class rated this field trip excellent.

Photo by Kim Pickering

David Burchett got to actually push the button on a supervised blasting at the Milton Quarry. He is standing next to the bomb shelter which he had to use while the blasting took place.

Watch for January's North Halton Compass for photos from the Halton 4-H Awards Night!
