THE MAIN EVENT

Throughout the Main Street reconstruction project, the Milton Downtown Business Improvement Association (DBIA) will keep you informed about access, sales and promotion events—in every issue of The Compass.

FRONT DOOR... BACK DOOR...

You're always welcome in Downtown Milton!

Reconstruction is entering its last phase with the pouring of new concrete sidewalks on both sides of Main Street. That may mean some minor inconvenience accessing your favourite Downtown Milton stores so please use BACK DOORS from parking lots behind Main Street on the north and south side. Those stores with back doors will welcome you, even if you are just 'passing through'!

We want to thank you for your continued patronage as our downtown undergoes its transformation!

If parking is temporarily restricted due to sidewalk work, please use the parking lots off Mill & Mary Sts. Or try the new access off James St. by St. Paul's Church to parking behind the stores in the north west corner of Downtown Milton.

DOWNTOWN MILTON IS OPEN AND WE WANT YOUR BUSINESS!

I'm the "Main Man" bringing you the news and the answers about the "Main Event". Here's what's happening in June.

The underground work has now been completed. New curbing and new paving the length of Main Street in Downtown Milton has now been done. Now we're in the final phase-pouring of sidewalks, decorative brickwork, new lamp standards and finally new trees and landscaping. By the end of June, we'll be down to the 'finishing touches'. Watch for a grand re-opening in early July.

What about new landscaping?

Unfortunately, the old trees' roots were intertwined in the underground pipes that had to be replaced. Many shrubs were saved and are being replanted in Campbellville's downtown. Downtown Milton will have new trees! 42 new trees -- locusts, maple, crabapple, cherry, pear, tree lilac and lindens + over 600 perennials, 28 shrubs and hanging baskets on the new street lights. It will be beautiful...thank you for your patience.
