**NOTICE OF PUBLIC INFORMATION CENTRE
 BRIDGES NO. 59 and NO. 69 REPLACEMENT PROJECT
 Sixth Line Nassagaweya between No. 5 SR and No. 15 SR**

The Town of Milton will be replacing two bridges located on the Sixth Line Nassagaweya between No. 5 SR and No. 15 SR.

Bridge #59 is located on the Sixth Line approximately 4.2 km. north of No. 5 SR on the Sixth Line Nassagaweya. The bridge was constructed in 1940 over the same creek that flows into Hilton Falls. It is a concrete structure having a single span of approximately 6.2 metres (20 ft.) and a deck width of 6.1 metres (20 ft.)

Bridge #69 is located approximately 3.6 km. north of No. 5 SR also on the Sixth Line Nassagaweya. The bridge was constructed in 1945 just south of #59 and crosses the same creek. Very similar in construction as #59, it has a single span of approximately 6.6 metres (21'6"), a deck width of only 6.8 metres (22 ft.); no safety railings or vehicle approach protection.

A Public Information Centre is being held to provide the public with an opportunity to review project drawings and to discuss any potential construction disruptions from the proposed works. Staff from the Town of Milton and the engineering consultant will be in attendance to answer questions.

DATE: Wednesday November 26, 2003
LOCATION: Nassagaweya Community Centre - 11264 Guelph Line
TIME: 6:00 p.m. to 8:00 p.m.

Interested persons are invited to drop-in during the above-noted hours to review and comment on the proposed design.

This project is being designed in accordance with the Class Environmental Assessment, Schedule A, for Municipal Road Projects.

If you are unable to attend this Public Information Centre and wish to obtain additional information or provide written comments, please address your concerns to:

Rick Tipping
 Project Coordinator

**NOTICE OF PUBLIC INFORMATION CENTRE
 TWISS ROAD CLASS ENVIRONMENTAL ASSESSMENT STUDY**

Study Area: Approximately 1.5 Kilometres north of Derry Road (Twiss Hill) to Steeles Avenue

Twiss Road between Derry Road and Steeles Avenue is a 2 lane rural road. The road is currently paved from Derry Road north for approximately 1.5 kilometers with the remainder being gravel.

In preparation of road reconstruction that will address existing road deficiencies including vertical and horizontal alignments, the Town of Milton has implemented a study, in accordance with the Municipal Class Environmental Assessment (Class EA) process. With the assistance of the various environmental agencies, this study will identify and address environmental impacts. Philips Engineering of Burlington has been retained to assist the Town.

The first public information centre has been arranged for:

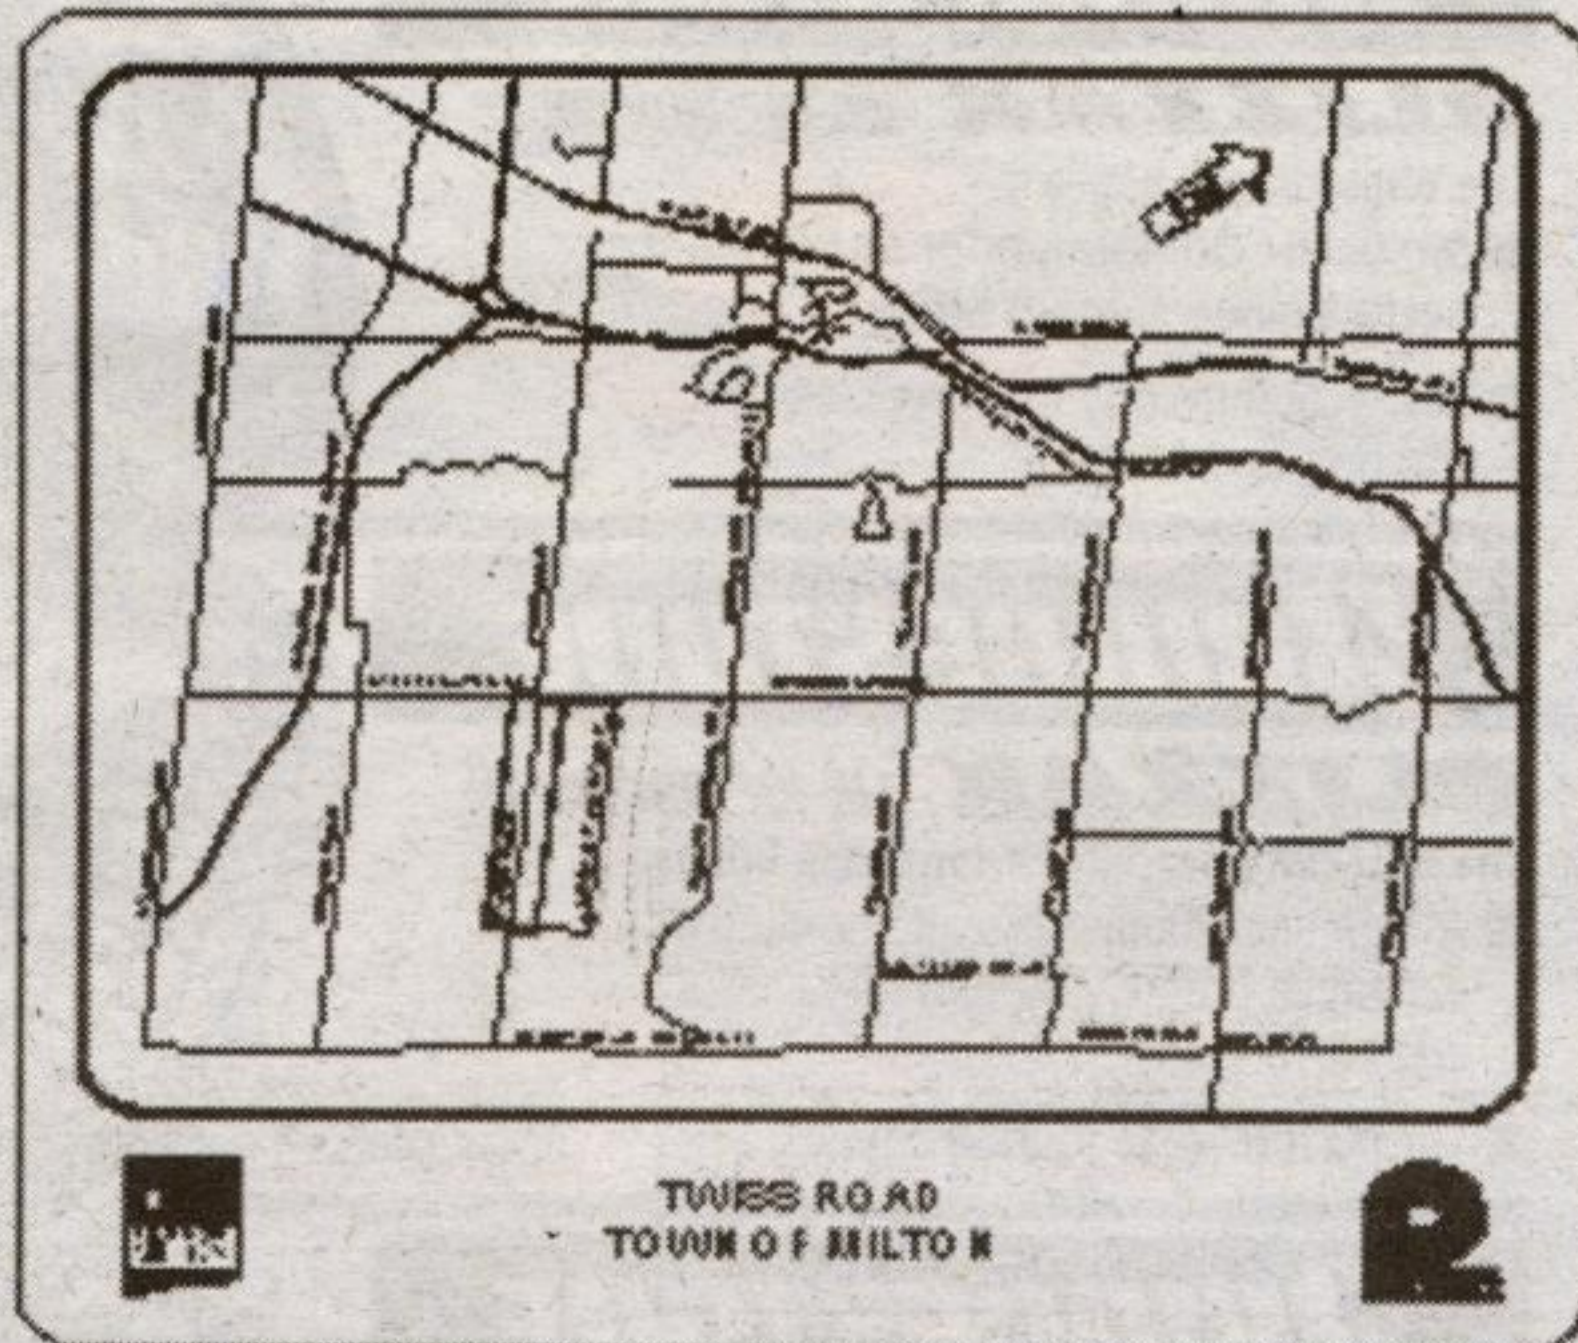

DATE: Thursday December 4, 2003
LOCATION: Campbellville Lions Hall, 42 Main Street, South
TIME: 6:00 p.m. to 8:00 p.m. (Open House / Drop-in Centre format)

The purpose of the information centre is to review and obtain public input with regard to: the issue being addressed; the collection of background information; and, the alternatives being considered for Twiss Road.

It will be an open house / drop-in centre format which anyone with an interest in the study is invited to attend and participate. If you cannot attend and would like to provide comments, please forward them by December 19, 2003 to one of the following:

Mr. Rick Tipping
 Project Coordinator
 Town of Milton
 43 Brown Street
 Milton, Ontario L9T 5H2
 Phone: (905) 878-7252 ext. 2513
 Fax: (905) 876-5029
 e-mail: rick.tipping@milton.ca

Mr. David Sinke

**THE TOWN OF MILTON
 INAUGURAL CEREMONY**

Mayor Gord Krantz and Members of Milton Council cordially invite the citizens of the Town of Milton to attend the:

**SWEARING-IN AND INAUGURAL CEREMONY
 FOR THE MEMBERS OF THE COUNCIL ELECT**

to be held at 7:30 p.m. on Monday, December 1st, 2003 in the Municipal Council Chambers, Town Hall, 43 Brown Street.

**Troy McHarg
 Town Clerk**

**Rural thefts
 shock residents**

BY JENNIFER ENRIGHT

Some homeowners in Halton Hills (whose names cannot be disclosed) narrowly missed being robbed while they were asleep, making this the latest incident in a series of local house break-ins.

On the night of November 4, a house on Eighth Line, south of 5 Sideroad in Halton Hills, was the target of a robbery. But Detective Carol Crowe from the Halton Regional Police Service said things didn't go as planned.

"The homeowners woke up last night (November 4) and scared them off. They flee if somebody wakes up."

Detective Crowe said she couldn't disclose any more information on this specific break-in since the investigation is ongoing. Four to five detectives have been assigned to this case and other similar break-ins, all of which took place in rural areas of Halton Hills.

But she did say that Halton police believe this break-in as well as six others that occurred between midnight on October 25 and 6am on October 26 are related. The break-ins last month took place at residences in the Steeles Avenue and Sixth Line area of Halton Hills. Police are also considering the possibility that these nighttime break-ins are linked to another six occurrences around the same area, but during the day.

"We believe this to be a single group of individuals that have targeted this area," she said.

According to a news release issued in late October by the Halton Regional Police, last month's break-ins involved entries into houses while the residents were there. The suspects gained

entry through unlocked windows or doors. The suspects would then steal items such as purses, wallets, keys, and in one case the car out of the garage after picking up the keys inside the house.

Detective Crowe said it's fortunate that no one has been injured as a result of these break-ins. "There haven't been any (physical) confrontations."

Betty Brownridge, a resident of Sixth Line, was affected by the break-ins and she's glad that she wasn't injured or worse. Mrs. Brownridge's house was broken into sometime in the evening or early morning on October 25 or 26. "I was down the hall three times that night. At 3 a.m. I had a cookie and orange juice."

The fact that Mrs. Brownridge and her husband, Ward, had been robbed didn't register until Mr. Brownridge looked into his garage in the morning. There was no sign of the couple's 1999 beige Ford Taurus valued at about \$10,000. They also discovered that \$150 had been taken - along with the car keys - from Mrs. Brownridge's purse. The vehicle was found a few days later off Heritage Road.

Detective Crowe advises people to light up their property as much as possible at night to make it less attractive for break-ins. It's also helpful to consider leaving a TV or radio on to make it look like somebody is awake. Keep everything locked, including garage doors and vehicles. If you have any information on any of these entries, contact the Halton Regional Police Service at 905-878-5511 or Crime Stoppers at 1-800-222-TIPS (8477).

Thank You

**My sincere thanks to the voters
 and volunteers who supported me
 in the recent municipal election**
